

ASTM-Published Book Wins SPECIAL ACHIEVEMENT AWARD from American Nuclear Society

The Materials Science and Technology Division of the American Nuclear Society has presented its **SPECIAL ACHIEVEMENT AWARD** to Ronald L. Klueh and Donald R. Harries for their book, High-Chromium Ferritic and Martensitic Steels for Nuclear Applications.

The Award recognizes individuals who have contributed to the field of materials science and technology through an outstanding book, innovative concept, or an entity or product that has had a significant impact on the direction or success of nuclear materials technology.
