Contents

Overview	ix
IMPROVING THE QUALITY OF GROUND-WATER INVESTIGATIONS	
Realistic Expectations for Ground-Water Investigations in the 1990's— M. J. BARCELONA AND J. A. HELFRICH	3
The Need for Improved Use of Geologic Data in Ground-Water Investigations— P. T. REGAN, J. A. CONTE, AND M. M. MITCHELL	24
A Proposed Strategy for Assessing Compliance with the RCRA Ground-Water Monitoring Regulations— A. M. PARSONS AND P. A. DAVIS	39
SURFACE AND BOREHOLE GEOPHYSICS IN GROUND-WATER INVESTIGATIONS	
The Use of Geophysics in the Detection of Buried Toxic Agents at a U.S. Military Installation— R. P. ALLEN AND M. A. SEELEN	59
Geophysical Methods Used to Guide Hydrogeological Investigations at an Umtra Site Near Grand Junction, Colorado— W. E. WIGHTMAN, B. C. MARTINEK, AND D. HAMMERMEISTER	69
Geoelectrics in Comprehensive Ground Water Contamination Studies— O. MAZAC, W. E. KELLY, AND I. LANDA	79
VADOSE ZONE INVESTIGATION METHODS	
Vadose Zone Characterization Using Field Permeameters and Instrumentation— J. A. HAVLENA AND D. B. STEPHENS	93
Techniques for Quantifying the Recharge Rate Through Unsaturated Soils— R. G. KNOWLTON, JR., A. M. PARSONS, AND K. N. GAITHER	111
Evaluation of Four Vadose Zone Probes Used for Leak Detection and Monitoring— D. E. DANIEL, P. M. BURTON, AND S.-D. HWANG	124

Measurement of Organic Vapor Isotherms on Wet Soils and Aquifer Materials—
J. FARRELL AND M. REINHARD 140

**Quality Assurance in Soil Gas Surveys: False Positive Acetone Identifications
at a Codisposal Site—**T. R. HEINS, H. B. KERFOOT, D. J. MILLER, AND
D. A. PETERSON 151

DIRECT PUSH TECHNOLOGY IN GROUND-WATER INVESTIGATIONS

**Use of Piezometric Cone Penetration Testing with Electrical Conductivity
Measurements (CPTU-EC) for the Detection of Hydrocarbon Contamination
in Saturated Granular Soils—**A. I. STRUTYNSKY, R. E. SANDIFORD, AND
D. CAVALIERE 169

**Delineation of Lithology and Ground-Water Quality in a Complex Fluvial Estuarine
Depositional Zone—**P. D. KUHLMEIER AND T. E. STURDIVANT 183

**Use of Piezometric Cone Penetration Testing and Penetrometer Ground-Water
Sampling for Volatile Organic Contaminant Plume Detection—**
A. I. STRUTYNSKY AND T. J. SAINY 199

GROUND-WATER MONITORING WALL DESIGN AND INSTALLATION

**Suggested Guidelines for the Use of PTFE, PVC, and Stainless Steel in Samplers
and Well Casings—**L. V. PARKER 217

**Methodology for the In-Field Design of Monitoring Wells in Heterogeneous
Fine-Grained Formations—**S. D. REYNOLDS AND D. A. ZEMO 230

An Effective Monitoring Screen for Fine Sand Aquifers—G. A. GILLESPIE 241

Design and Construction of Deep Groundwater Monitoring Wells—L. D. BEARD 256

WATER-LEVEL MEASUREMENT AND GROUND-WATER SAMPLING

**Using Vibration Strip Transducers for Measuring Water Levels in Monitoring
Wells—**G. N. DURHAM AND T. G. BUMALA 273

A Field Investigation of Ground-Water Monitoring Well Purging Techniques—
V. MALTBY AND J. P. UNWIN 281

Deployment and Purging for In Situ Sensors in Monitoring Wells—R. SCHALLA 300

**A Review of Fiber Optic and Related Technologies for Environmental Sensing
Applications—**J. W. GRIFFIN AND K. B. OLSEN 311

DETERMINATION OF HYDRAULIC PARAMETERS

Measurement of Gas Permeability Through Clay Soils—M. T. IZADI AND R. W. STEPHENSON	331
A Comparison of Field and Laboratory Measurements of Hydraulic Measurements of Hydraulic Conductivity—M. PICORNELL AND A. GUERRA	346
Measurement of Hydraulic Conductivity in Clay Using Push-In Piezometers— A. J. LUTENEGGER AND D. J. DeGROOT	362

STATISTICAL EVALUATION OF GROUND-WATER DATA

Assessing the Usability of Historical Water-Quality Data for Current and Future Applications—G. M. SPREIZER, T. J. CALABRESE, AND R. S. WEIDNER	377
An Alternative Data Evaluation Technique for Detecting Disposal Site Leakage Events—R. H. PLUMB, JR.	391
Considerations in Selecting Indicator Parameters for the Statistical Evaluation of Ground-Water Quality—E. F. PASTOR AND D. R. FRICK	411
Author Index	427
Subject Index	429
