

STP 1240

***Stabilization and Solidification of
Hazardous, Radioactive, and
Mixed Wastes***

T. Michael Gilliam and Carlton C. Wiles, Editors

ASTM Publication Code Number (PCN):
04-012400-56

ASTM
100 Barr Harbor Drive
West Conshohocken, PA 19078
Printed in U.S.A.

Contents

Overview	x
-----------------	---

INVITED PRESENTATIONS

Basic Considerations in the Application of Vitrification Technologies— I. L. PEGG	3
--	---

ORGANIC WASTES

Laboratory Equipment and Data Interpretation Method for Predicting Volatile Emissions During Solidification—H. J. J. SU, R. H. JENSEN, AND M. HINSEVELD	21
--	----

Evaluation of Solidification/Stabilization for Treating Explosives Contaminated Soils—M. J. CULLINANE, JR. AND M. CHANNELL	38
---	----

Immobilization of Low Level Hazardous Organics Using Recycled Materials—J. R. CONNER AND F. G. SMITH	52
---	----

Morphology and pH Changes in Leached Solidified/Stabilized Waste Forms— K. Y. CHENG AND P. L. BISHOP	73
---	----

MECHANISMS OF CONTAINMENT

Mechanisms of Metal Containment Resulting from the Solidification of a Commercially Produced Stabilized Waste—C. R. CHEESEMAN, C. J. SOLLARS, AND R. PERRY	80
---	----

Chemical Characterization of Pore Water of a Solidified Hazardous Waste— S. TRUSSELL AND B. BATCHELOR	94
--	----

Microbially Influenced Degradation of Cement-Solidified Low-Level Radioactive Waste Forms—R. D. ROGERS, M. A. HAMILTON, R. H. VEEH, AND J. W. McCONNELL, JR.	116
---	-----

PROCESS TECHNOLOGY DEVELOPMENT AND EVALUATION—PART I

Influence of Silica Fume on the Immobilization Properties of Cementitious Mortars Exposed to Freeze-Thaw Cycles—R. QUARESIMA, G. SCOCCIA, R. VOLPE, F. MEDICI, AND C. MERLI	135
--	-----

Stabilization of Heavy Metals in Portland Cement Matrix: Effects on Paste Properties—J. I. BHATTY AND P. B. WEST	147
Alkali-Slag Cements for the Immobilization of Radioactive Wastes—C. SHI AND R. L. DAY	163
Evaluation of Alternative Drilling Technologies and Subsurface Confinement Barriers for Single Shell Tanks at Hanford—W. P. ACHESON, T. A. TOWERS, K. W. WENTZEL, H. R. JOHNSON, AND W. K. OVERBEY	174
Performance of Cementitious Containment Barriers—M. L. ALLAN AND L. E. KUKACKA	186
Preliminary Tests of an Infrared Process Monitor for Polyethylene Encapsulation of Radioactive Waste—K. L. WRIGHT, R. W. JONES, J. F. McCLELLAND, AND P. D. KALB	198
Remediation of Lead-Contaminated Soils at Small Arms Ranges—A. R. GAVASKAR, J. L. MEANS, J. C. HEATH, AND B. NELSON	209
The Effect of Graphite Venting on ISV Processing of Low Permeability Soils—B. M. GARDNER AND R. K. FARNSWORTH	224
Summary of U.S. EPA Research on Solidified/Stabilized Waste Form Long-Term Durability—D. R. KIRK	239
Using Mixture Experiments to Develop Cementitious Waste Forms—R. D. SPENCE, C. M. ANDERSON, AND G. F. PIEPEL	251
Sulfur Polymer Cement, A Final Waste Form for Radioactive and Hazardous Wastes—G. R. DARNELL	272

EMERGING TECHNOLOGIES

Lab-Scale Tests on ISV Vapor Transport Phenomena—R. K. FARNSWORTH AND B. M. GARDNER	285
Mixed Waste Solidification Testing on Polymer and Cement-Based Waste Forms in Support of Hanford's Wrap 2A Facility—D. A. BURBANK, JR. AND K. M. WEINGARDT	298
Vitrification of Lead Contained in Lead Based Organic Coatings Using Thermal Spray Technology—S. W. COVEY, J. P. PETREANU, AND A. KUMAR	311

Thermoplastic Encapsulation Treatability Study for a Mixed Waste Incinerator Off-Gas Scrubbing Solution— P. D. KALB, J. W. ADAMS, M. L. MEYER, AND H. H. BURNS	327
Critical Parameters and TCLP Performance of the RFP Microwave Solidification System— V. G. ESCHEN, G. S. FENNER, D. M. SPLETT, AND G. S. SPRENGER	341
Flow-Through Leach Testing Applied to Stabilized/Solidified Wastes— E. J. BUTCHER, C. R. CHEESEMAN, C. J. SOLLARS, AND R. PERRY	354
Property Changes of Cement-Based Waste Forms During Leaching— K. Y. CHENG AND P. L. BISHOP	375
Experimental and Theoretical Studies for Assessing the Retention Capacity of Cement Stabilized Materials for Land Disposal— S. BALZAMO, L. CASTELLANO, AND G. DE ANGELIS	388
Ultrasonic Agitation Method for Accelerating Batch Leaching Tests— R. J. CALDWELL, J. A. STEGEMANN, AND C. C. CHAO	413
PROCESS TECHNOLOGY DEVELOPMENT AND EVALUATION—PART II	
Evaluation of Contaminant Leachability Factors by Comparison of Treatability Study Data for Multiple Solidified/Stabilized Materials— P. M. ERICKSON AND E. F. BARTH	429
Summary of Technical Resource Document on Solidification/Stabilization and its Application to Waste Materials— J. L. MEANS, L. A. SMITH, K. W. NEHRING, S. E. BRAUNING, C. I. MASHNI, AND C. C. WILES	442
Bulk Site Reference Materials— J. J. BARICH, III AND R. R. JONES, SR.	454
Field Validation of Test Methods for Solidified Waste Evaluation—A Status Report— J. A. STEGEMANN, R. J. CALDWELL, AND C. SHI	467
Leaching Behavior of Polyethylene Encapsulated Nitrate Waste— M. FUHRMANN AND P. D. KALB	477
Stabilization/Solidification (S/S) of Heavy Metal Contaminated Soils by Means of a Quicklime-Based Treatment Approach— D. DERMATAS AND X. MENG	499

Recycling Contaminated Spent Blasting Abrasives in Portland Cement Mortars Using Solidification/Stabilization Technology—B. K. SALT, A. G. GARNER, D. W. FOWLER, R. C. LOEHR, AND R. L. CARRASQUILLO	514
Use of the Shrinking Core/Exposure Model to Describe the Leachability From Cement Stabilized Wastes—M. HINSEVELD AND P. L. BISHOP	528
Performance Modeling of Concrete/Metal Barriers Used in Low-Level Waste Disposal—R. SHUMAN, N. CHAU, A. S. ICENHOUR, H. W. GODBEE, AND M. L. THARP	540
Abrasive Blast Material Utilization in Asphalt Roadbed Material—J. L. MEANS, K. W. NEHRING, AND J. C. HEATH	569
Effects of Various Additives on the Solidification of Oily Sludges: A Bench-Scale Study—D. S. KEELY AND E. C. DIETHELM	584
In-Situ Slurry Wall Formation with the SoilSaw® Barrier System—E. E. CARTER	596
Literature Review of the Interaction of Select Inorganic Species on the Set and Properties of Cement and Methods of Abatement Through Waste Pretreatment—C. H. MATTUS AND A. J. MATTUS	609
Laser Driven Thermal Reactor for Hazardous Waste Stabilization—A. NAZARIAN	634
Volatilization Modeling of Semivolatile Organic Compounds During Solidification Processes—B. M. SASS, L. A. SMITH, W. M. C. HUANG, S. H. ROSANSKY, AND E. DRESCHER	648
FIELD APPLICATION AND FULL-SCALE TESTING	
In-Situ Stabilization of Mixed Waste Contaminated Soil—R. L. SIEGRIST, S. R. CLINE, T. M. GILLIAM, AND J. R. CONNER	667
Field Quality Control Strategies for Assessing Solidification/Stabilization—S. M. BUTLER, E. F. BARTH, AND J. J. BARICH	685
In Situ Solidification/Stabilization Pilot Study for the Treatment of Coal Tar Contaminated Soils and River Sediments—M. A. LAWSON, J. G. VENN, L. B. PUGH, AND T. VALLIS	691

Lysimeter Data as Input to Performance Assessment Models—

J. W. McCONNELL, JR., R. D. RODGERS, T. M. SULLIVAN, J. D. JASTROW, D. S. HICKS,
AND R. R. BREY
