

STP 1356

***Masonry: Materials, Testing,
and Applications***

J. H. Brisch, R. L. Nelson, and H. L. Francis, Editors

ASTM Stock #: STP1356

ASTM
100 Barr Harbor Drive
West Conshohocken, PA 19428-2959

Contents

Overview	vii
New Polymer Additives for Mortar Cement—S. G. CHU, T. J. PODLAS, AND T. S. YOUNG	1
Structural Properties of Autoclaved Aerated Concrete Masonry— J. H. MATTHYS AND R. L. NELSON	13
U.S. Brick Econometrics: 1930–1992—C. T. GRIMM AND B. GABBY	23
Analysis of Limestone and Dolomite by X-Ray Fluorescence—B. D. WHEELER	34
Unbonded Capping for Concrete Masonry Units—L. K. CROUCH, M. L. KNIGHT, R. C. HENDERSON, AND W. A. SNEED, JR.	62
Comparison of Actual and Allowable Stress Values for Out-of-Plane Shear on Masonry Walls—R. C. HENDERSON, G. S. WILSON, L. K. CROUCH, AND W. A. SNEED, JR.	75
Use of Ruggedness Testing to Develop an Inter-Laboratory Testing Protocol for Mortar-Cement Mortar—L. G. PONCE, R. E. KLINGNER, AND J. M. MELANDER	89
Development of an Unbonded Capping System for Clay Masonry Prisms— L. K. CROUCH, R. C. HENDERSON, AND W. A. SNEED, JR.	105
The Importance of Testing to Evaluate the Effect Masonry Walls Have on High-Rise Building Stiffness—J. S. WEINSTEIN AND W. A. HOSTETLER	116
In-Situ Evaluation of Compressed Brick Veneer Using the Flatjack Technique—G. R. BELL AND B. A. GABBY	125
Renovation of Existing Masonry Buildings to Residential Lofts—B. S. KASKEL, E. A. GERNS, AND K. DEMUTH	140
New NDE Technologies for Evaluating Reinforced Concrete Masonry— A. M. ALEXANDER AND R. W. HASKINS	148
