Printed in USA

Contents

Overview	vii
The Use of a Fire-Resistant Turbine Lubricant: Europe Looks to the Future— W. DAVID PHILLIPS	1
Advanced High-Temperature Air Force Turbine Engine Oil Program— LOIS J. GSCHWENDER, LYNNE NELSON, CARL E. SNYDER, JR., GEORGE W. FULTZ, AND COSTY S. SABA	17
The Evolution of Base Oil Technology—DAVID C. KRAMER, BRENT K. LOK, AND RUSS R. KRUG	25
Turbine Oil Quality and Field Application Requirements—STEVEN T. SWIFT, K. DAVID BUTLER, AND WERNER DEWALD	39
Performance Advantages of Turbine Oils Formulated with Group II and Group III Basestocks—DOUGLAS J. IRVINE	53
Improved Response of Turbine Oils Based on Group II Hydrocracked Base Oils Compared with Those Based on Solvent Refined Base Oils— BRUCE P. SCHWAGER, BRYANT J. HARDY, AND GASTON A. AGUILAR	71
Performance Advantages of Turbine Oils Formulated with Group II Base Oils— MARK E. OKAZAKI AND SUSAN E. MILITANTE	79
Antioxidant Analysis for Monitoring Remaining Useful Life of Turbine Fluids— JO AMEYE AND ROBERT E. KAUFFMAN	86
