

STP 1506

Advances in Electrochemical Techniques for Corrosion Monitoring and Measurement

Table of Contents

Overview

KEYNOTE PAPERS

Electrochemical Techniques in Corrosion: Status, Limitations and Needs—Invited Presentation—*G.S. Frankel*

Development of Electrochemical Standards for Corrosion Testing Forty Years of Progress—Invited Presentation—*S.W. Dean*

NEW EXPERIMENTAL SET-UP

Use of Coupled Multi-Electrode Arrays to Advance the Understanding of Selected Corrosion Phenomena—*H. Cong, F. Bocher, N.D. Budiansky, M.F. Hurley, J.R. Scully*

A Review of Coupled Multielectrode Array Sensors for Corrosion Monitoring and a Study on the Behaviors of the Anodic and Cathodic Electrodes—*L. Yang, K.T. Chiang*

On Using Laboratory Measurements to Predict Corrosion Services Lives for Engineering Applications—*R.E. Ricker*

NEW METHODS of ANALYSIS

Study of Corrosion Initiation of a Steel Panel from a Defect in Coating Using Localized Electrochemical Impedance Spectroscopy (LEIS)—*X. Wu, T. Wang, E. Montalvo, T. Provder, C. Handsy, W. Shen*

Electrochemical Impedance Spectroscopy Measurement during Cathodic Disbondment Experiment of Pipeline Coatings—*S. Papavinasam, M. Attard, R.W. Revie*

NEW TECHNIQUES

Measuring the Repassivation Potential of Alloy 22 Using the Potentiodynamic-Galvanostatic-Potentiostatic Method—*K.J. Evans, R.B. Rebak*

Comparison of Corrosion Rate Measurement of Copper, Zinc and C1018 Steel Using Electrochemical Frequency Modulation and Traditional Methods—*D. Loveday, R. Rodgers*

Performance of an Enzyme Electrode Designed for a Sulfide Monitoring Biosensor—*R.D. Sooknah, S. Papavinasam, M. Attard, R.W. Revie, W.D. Gould, O. Dinardo*

Electrochemical Quartz Crystal Microbalance Technique to Monitor External Polymeric Pipeline Coatings—*S. Papavinasam, M. Attard, R.W. Revie*

ADVANCES IN FIELD APPLICATIONS

Comparison of Measurements Provided by Several Corrosion Rate Meters with Modulated Confinement of the Current—*I. Martinez, C. Andrad, E.E. Marie-Victoire, V. Bouteiller, N. R136*

Corrosion of Phosphoric Irons in Acidic Environments—*G. Sahoo, R. Balasubramaniam*

Crevice Corrosion of Grade-12 Titanium—*X. He, J.J. Noel, D.W. Shoesmith*

Measurement of Corrosion Potentials of the Internal Surface of Operating High-Pressure Oil and Gas Pipelines —*A. Demoz, S. Papavinasam, K. Michaelian, R.W. Revie*
