

STP 1507

Pesticide Formulations and Delivery Systems, 28<sup>th</sup> Volume: Global Trends and Regulatory Drivers in the Crop Protection Industry

---

Table of Contents

**Formulations I**

Novel Delivery Systems for Integrated Pest Management: Now is the Time—*S.H. Hutchins, K. Swayze*

Fungicides Associated with Two Adjuvant Formulations for Preventive and Curative Soybean Rust Control—*D.C. Ferguson, J.R. Yowell, L. Larissa May-De Mio, C.V. Godoy, F. da Cunha, G.M. Rosa, V. da C. Lima Neto*

A Unique Formulation of Glyphosate in the Acid Form—*G. Volgas, R.E Mack, J. Roberts, M. Wayland, B. Alford*

Development of a Multimedia Model for the Fate Prediction of Hydrocarbon Fluids in Agrochemical Formulations —*C.S. Warren, T.F. Parkerton, R. Prince, A. Rohde*

**Regulatory Initiatives**

Assessment of Ozone Formation Potential from Pesticide Solvents Using a Mobile Ozone Chamber Assay Approach—*W. Yang, A. Kumar, C. Howard, D. Derrick, M. Kleeman, P. Green*

**Delivery Applications**

Collection Efficiencies of Various Airborne Spray Flux Samplers Used in Aerial Application Research—*B.K. Fritz, W.C. Hoffman*

Evaporation of Pesticide Droplets under Various Relative Humidity Conditions—*H. Zhu, Y. Yu, H.E. Ozkan*

**Formulations II**

Comparison of ASTM and CIPAC Suspension Methods—*L. Costello*

**Research: Soil, Seed, Test Methods**

Soil Water Measurements Relevant to Agronomic and Environmental Functions of Chemically-Treated Soil—*R.E. Sojka, G.A. Lehrs, J.L. Reed, A.C. Koehn, J.A. Foerster, J. Kostka*

Investigating the Use of Hydrocarbon Fluids in Seed Treatment Formulations—*M. Krevalis, G. Beestman*

Morpholine Amide Solvent: A New Inert—*D.C Ferguson, A. Stern*
