

ASTM International Technical Committee F24 on Amusement Rides and Devices

Established: 1978
Number of Members: 455
Number of Standards: 16
Global Participation: 12 Countries represented
The standards are available in: Volume 15.07 in the *Annual Book of ASTM Standards*
Meetings: F24 meets twice each year, in February and October

SCOPE: The scope of the Committee shall be development of standard methods of test, performance specifications, definitions, maintenance, operations, and practices and guides for amusement rides and devices. The work of this Committee will be coordinated with other ASTM Committees and other societies and organizations having mutual interest.

HARMONIZING WORLDWIDE STANDARDS EFFORTS:

To help achieve ongoing common ground in standards development for the global amusement sector, ASTM Committee F24 established a subcommittee (F24.80) specifically focused on harmonization. This group works closely with IAAPA's International Standards Harmonization Group to establish worldwide consistency in major areas of ride safety standards. Throughout the year at IAAPA-sponsored venues, ASTM F24 and IAAPA bring together representatives from industry and standards bodies from around the world for working discussions and seminars on amusement industry standardization.
