

Journal of Composites Technology & Research

Author Index

Volume 16, 1994

Number	Issue	Pages
1	January	1-100
2	April	101-200
3	July	201-288
4	October	289-390

A-B

Abdel-Jawad, YA: *see* Abu-Farsakh, GA and Abdel-Jawad, YA

Abu-Farsakh, GA and Abdel-Jawad, YA: New failure criterion for nonlinear composite materials, April, 138

Altstädt, V: *see* Wilson, DW, Altstädt, V, Maier, M, Prandy, J, Thoma, K, and Vinckier, D

Ananth, CR: *see* Chandra, N, Ananth, CR, and Garmestani, H

Berglund, LA: *see* Varna, J and Berglund, LA

C-D

Campbell, JB: *see* Rousseau, CQ, Davidson, DL, and Campbell, JB

Castelli, MG: Advanced test technique to quantify thermomechanical fatigue damage accumulation in composite materials, Oct., 323

Chandra, N, Ananth, CR, and Garmestani, H: Micromechanical modeling of process-induced residual stresses in Ti-24Al-11Nb/SCS-6 composite, Jan., 37

Cui, W, Wisnom, MR, and Jones, MI: Effect of through thickness tensile and compressive stresses on delamination propagation fracture energy, Oct., 329

Davidson, DL: *see* Rousseau, CQ, Davidson, DL, and Campbell, JB

Drukker, E: *see* Gottesman, T, Girshovich, S, Drukker, E, Sela, N, and Loy, J
