

# Composites Technology Review

## Index to Volume 4

### 1982

Number	Month of Issue	Pages
1	Spring	1-36
2	Summer	37-60
3	Fall	61-108
4	Winter	109-156

#### A-B

- Adams, D. F. and Schaffer, B. G.: Analytical/experimental correlations of stiffness properties of unidirectional composites, Summer, 45
- Agarwal, B. D. and Joneja, S. K.: Strain-controlled flexural fatigue of unidirectional composites, Spring, 6
- Al-Qureshi, H. A. and Kerber, F. L.: Approximate method of sizing soluble plaster mandrels in filament winding, Summer, 49
- Bascom, W. D.: Review of *Treatise on Adhesion and Adhesives, Volume 5* by Patrick, Summer, 55
- Bates, L. G.: *see* Sendeckyj, G. P., Stalnaker, H. D., Bates, L. G., Kleisman, R. A., and Smith, J. V.
- Browning, C. E.: Summary of ASTM symposium on producibility and quality assurance of composite materials, Summer, 59
- Buckling: Approximate analysis of postbuckled through-width delaminations (Whitcomb), Fall, 71

#### C

- Call for papers
- Composite structures specialists' meeting, Fall, 107
- First technical conference on polyimides, Spring, 34
- International symposium on adhesive joints, Spring, 34
- Second U.S.-Japan conference on composite materials, Fall, 107
- Symposium on delamination and debonding of material, Winter, 148
- Testing, evaluation, and quality control of composites, Spring, 34
- Chaturvedi, S. K.: Isotropic and singular points in photoelasticity of composites, Spring, 22
- Chin, W. K.: *see* Hahn, H. T. and Chin, W. K.
- Composite fabrication: Advances in a structural sheet molding compound (Kay), Winter, 110

#### Composite materials

- Advances in a structural sheet molding compound (Kay), Winter, 110
- Approximate analysis of postbuckled through-width delaminations (Whitcomb), Fall, 71
- Fatigue of graphite/epoxy [0/90/45/-45]<sub>s</sub> laminates under dual stress levels (Yang and Jones), Fall, 63
- Nonlinear matrix failure criterion for fiber-reinforced materials (Lifshitz), Fall, 78
- Recent work in the fractography of composite materials (Masters), Winter, 142
- Surface weatherability of glass-fiber-reinforced polyester sheeting. I. effect of modification of resin chemical composition, (Yamasaki), Fall, 84
- Surface weatherability of glass-fiber reinforced polyester sheeting. II. effect of constituents (Yamasaki), Winter, 125
- Three-dimensional analysis of [0/90]<sub>s</sub> and [90/0]<sub>s</sub> laminates with a central circular hole (Raju and Crews), Winter, 116
- Within-panel variability and scaling effects in composite materials (Sendeckyj, Stalnaker, Bates, Kleisman, and Smith), Winter, 130
- Composite plates: Survey of Recent Research in the Analysis of Composite Plates (Reddy), Fall, 101

#### Composites review

- Approximate method of sizing soluble plaster mandrels in filament winding (Al-Qureshi and Kerber), Summer, 49
- Effect of physical aging on the time-dependent properties of carbon-fiber-reinforced epoxy composites (Kong), Fall, 97
- Environmental stability of Kevlar 49 fiber for flywheel applications (Hahn and Chin), Fall, 93
- Equation for bolt clampup relaxation in transient environments (Shivakumar and Crews), Winter, 132
- Evaluation of finite-element software packages for stress analysis of laminated composites (Griffin), Winter, 136
- Isotropic and singular points in photoelasticity of composites (Chaturvedi), Spring, 22
- Measurement of nonuniform microstrain in composite laminates (Highsmith and Reifsnider), Spring, 20
- Recent work in the fractography of composite materials (Masters), Winter, 142
- Reinforced aluminum composites for underwater systems (Dubel and Leonard), Summer, 49

- Relation between the network structure, deformation and failure processes, and mechanical properties of epoxies (Kong, Walkup, and Morgan), Fall, 88
- Survey of recent research in the analysis of composite plates (Reddy), Fall, 101
- Within-panel variability and scaling effects in composite materials (Sendeckyj, Stalnaker, Bates, Kleisman, and Smith), Winter, 130

#### Composite structures

- Advances in a structural sheet molding compound (Kay), Winter, 110
- Surface weatherability of glass-fiber reinforced polyester sheeting. II. effect of constituents (Yamasaki), Winter, 125

#### Conference reports

- International symposium on physico-chemical aspects of polymer surfaces (Mittal), Spring, 33
- Summary of ASTM symposium on producibility and quality assurance of composite materials, Summer, 59
- Summary of symposium on the long-term behavior of composites, Winter, 147
- Cracks: Microscopic observations of cross sections of impacted composite laminates (Takeda, Sterakowski, and Malvern), Summer, 40
- Crews, J. H., Jr.
- see* Raju, I. S. and Crews, J. H., Jr.
- see also* Shivakumar, K. N. Crews, J. H., Jr.
- Criteria: Nonlinear matrix failure criterion for fiber-reinforced materials (Lifshitz), Fall, 78

#### D-F

- Dubel, J. F. and Leonard, B. G.: Reinforced aluminum composites for underwater systems, Summer, 49
- Duke, J. C., Jr.: *see* Govada, A. and Duke, J. C., Jr.
- Epoxy composites
- Effect of physical aging on the time-dependent properties of carbon-fiber-reinforced epoxy composites (Kong), Fall, 97
- Environmental stability of Kevlar 49 fiber for flywheel applications (Hahn and Chin), Fall, 93
- Relation between the network structure, deformation and failure processes, and mechanical properties of epoxies (Kong, Walkup, and Morgan), Fall, 88
- Epoxy laminates: Strain rate, temperature, and humidity influences on strength and

- moduli of a graphite/epoxy composite (Lifshitz), Spring, 14
- Failure: Nonlinear matrix failure criterion for fiber-reinforced materials (Lifshitz), Fall, 78
- Fatigue (materials)
- Fatigue of graphite/epoxy [0/90/45/-45]<sub>s</sub> laminates under dual stress levels (Yang and Jones), Fall, 63
- Strain-controlled flexural fatigue of unidirectional composites (Agarwal and Joneja), Spring, 6
- Fractography: Recent work in the fractography of composite materials (Masters), Winter, 142

### G-K

- Glass fibers
- Surface weatherability of glass-fiber-reinforced polyester sheeting. I. effect of modification of resin chemical composition (Yamasaki), Fall, 84
- Surface weatherability of glass-fiber reinforced polyester sheeting. II. effect of constituents (Yamasaki), Winter, 125
- Govada, A. and Duke, J. C., Jr.: Failure analysis of composites using auger electron spectroscopy, Summer, 51
- Graphite composites
- Analytical/experimental correlations of stiffness properties of unidirectional composites (Adams and Schaffer), Summer, 45
- Strain rate, temperature, and humidity influences on strength and moduli of a graphite/epoxy composite (Lifshitz), Spring, 14
- Graphite/epoxy: Analytical/experimental correlations of stiffness properties of unidirectional composites (Adams and Schaffer), Summer, 45
- Griffin, O. H., Jr.: Evaluation of finite-element software packages for stress analysis of laminated composites, Winter, 136
- Hahn, H. T. and Chin, W. K.: Environmental stability of Kevlar 49 fiber for flywheel applications, Fall, 93
- Highsmith, A. and Reifsnider, K. L.: Measurement of nonuniform microstrain in composite laminates, Spring, 20
- Impact: Microscopic observations of cross sections of impacted composite laminates (Takeda, Sierakowski, and Malvern), Summer, 40
- Joneja, S. K.: see Agarwal, B. D. and Joneja, S. K.
- Jones, D. L.: see Yang, J. N. and Jones, D. L.
- Kay, J. F.: Advances in a structural sheet molding compound, Winter, 110
- Kerber, F. L.: see Al-Qureshi, H. A. and Kerber, F. L.
- Kleismit, R. A.: see Sendekyj, G. P., Stalnaker, H. D., Bates, L. G., Kleismit, R. A., and Smith, J. V.
- Kong, E. S. W.: Effect of physical aging on the time-dependent properties of carbon-fiber-reinforced epoxy composites, Fall, 97
- Kong, F. M., Walkup, C. M., and Morgan, R. J.: Relation between the network structure, deformation and failure processes, and mechanical properties of epoxies, Fall, 88

### L

- Laminates
- Approximate analysis of postbuckled through-width delaminations (Whitcomb), Fall, 71
- Equation for bolt clampup relaxation in transient environments (Shivakumar and Crews), Winter, 132
- Fatigue of graphite/epoxy [0/90/45/-45]<sub>s</sub> laminates under dual stress levels (Yang and Jones), Fall, 63
- Measurement of nonuniform microstrain in composite laminates (Highsmith and Reifsnider), Spring, 20
- Leonard, B. G.: see Dubel, J. F. and Leonard, B. G.
- Lifshitz, J. M.
- Nonlinear matrix failure criterion for fiber-reinforced composite materials, Fall, 78
- Strain rate, temperature, and humidity influences on strength and moduli of a graphite/epoxy composite, Spring, 14
- Literature reviews
- An Atlas of Polymer Damage* by Engle, Kingele, Ehrenstein, and Schaper (Morgan), Spring, 26
- A Characterization Study of Automotive Continuous and Random Glass Fiber Composites* by Riegner and Saunders (Reifsnider), Spring, 28
- Composite-Material Flywheels and Containment Systems* by Kulkarni (Lien), Fall, 106
- Damage in Composite Materials: Basic Mechanisms, Accumulation, Tolerance and Characterization* by Fong and Reifsnider (Reifsnider), Summer, 56
- Developments in Adhesive-2* by Kinloch (Christensen), Fall, 106
- Effect of Variances and Manufacturing Tolerances on the Design Strength and Life of Mechanically Fastened Composite Joints* by Garbo and Ogonowski (Reifsnider), Spring, 26
- Engineering Design, Second Edition* by Faupel (Reifsnider), Winter, 145
- Fatigue of Engineering Plastics* by Hertzberg and Manson (Mandell), Spring, 31
- Fatigue of Engineering Plastics* by Hertzberg and Manson (Mandell), Summer, 54
- Fracture Micromechanics of Polymer Materials* by Kuksenko (Sendekyj), Winter, 144
- Mechanics of Composite Materials* by Christensen (Sendekyj), Summer, 54
- Mechanics of Structured Media* by Selvadurai (Sendekyj), Winter, 144
- Treatise on Adhesion and Adhesives, Volume 5* by Patrick (Bascom), Summer, 55

### M-P

- Mallick, P. K.: Flexural creep of a high-fiber-content sheet molding compound composite, Fall, 105
- Malvern, L. E.: see Takeda, N., Sierakowski, R. L., and Malvern, L. E.
- Mandell, J. F.
- Review of *Fatigue of Engineering Plastics* by Hertzberg and Manson, Spring, 31
- Review of *Fatigue of Engineering Plastics* by Hertzberg and Manson, Summer, 54

- Masters, E.: Recent work in the fractography of composite materials, Winter, 142
- Microphotographs: Microscopic observations of cross sections of impacted composite laminates (Takeda, Sierakowski, and Malvern), Summer, 40
- Mittal, K. L.: International symposium on physicochemical aspects of polymer surfaces, Spring, 33
- Morgan, R. J.
- Review of *An Atlas of Polymer Damage* by Engle, Kingele, Ehrenstein, and Schaper, Spring, 26
- see Kong, F. M., Walkup, C. M., and Morgan, R. J.
- O'Brien, T. K.: Summary of symposium on the long-term behavior of composites, Winter, 147
- Photoelasticity: Isotropic and singular points in photoelasticity of composites (Chaturvedi), Spring, 22

### R

- Raju, I. S. and Crews, J. H., Jr.: Three-dimensional analysis of [0/90]<sub>s</sub> and [90/0]<sub>s</sub> laminates with a central circular hole, Winter, 116
- Reddy, J. N.: Survey of recent research in the analysis of composite plates, Fall, 101
- Reifsnider, K. L.
- Review of *A Characterization Study of Automotive Continuous and Random Glass Fiber Composites* by Riegner and Saunders, Spring, 28
- Review of *Damage in Composite Materials: Basic Mechanisms, Accumulation, Tolerance and Characterization* by Fong and Reifsnider, Summer, 56
- Review of *Effect of Variances and Manufacturing Tolerances on the Design Strength and Life of Mechanically Fastened Composite Joints* by Garbo and Ogonowski, Spring, 26
- Review of *Engineering Design, Second Edition* by Faupel, Winter, 145
- see Highsmith, A. and Reifsnider, K. L.
- Reinforced aluminum composites: Reinforced aluminum composites for underwater systems (Dubel and Leonard), Summer, 49
- Research brief
- Failure analysis of composites using auger electron spectroscopy (Govada and Duke), Summer, 51
- Flexural creep of a high-fiber-content sheet molding compound composite (Mallick), Fall, 105

### S

- Scaling effects: Within-panel variability and scaling effects in composite materials (Sendekyj, Stalnaker, Bates, Kleismit, and Smith), Winter, 130
- Schaffer, B. G.: see Adams, D. F. and Schaffer, B. G.
- Sendekyj, G. P.
- Review of *Fracture Micromechanics of Polymer Materials* by Kuksenko, Winter, 144

- Review of *Mechanics of Composite Materials* by Christensen, Summer, 54
- Review of *Mechanics of Structured Media* by Selvadurai, Winter, 144
- Stalnaker, H. D., Bates, L. G., Kleismit, R. A., and Smith, J. V.: Within-panel variability and scaling effects in composite materials, Winter, 130
- Shivakumar, K. N. and Crews, J. H., Jr.: Equation for bolt clampup relaxation in transient environments, Winter, 132
- Sierakowski, R. L.: *see* Takeda, N., Sierakowski, R. L., and Malvern, L. E.
- Smith, J. V.: *see* Sendeckyj, G. P., Stalnaker, H. D., Bates, L. G., Kleismit, R. A., and Smith, J. V.
- Software: Evaluation of finite-element software packages for stress analysis of laminated composites (Griffin), Winter, 136
- Stalnaker, H. D.: *see* Sendeckyj, G. P., Stalnaker, H. D., Bates, L. G., Kleismit, R. A., and Smith, J. V.
- Stiffness: Analytical/experimental correlations of stiffness properties of unidirectional composites (Adams and Schaffer), Summer, 45
- Strain: Measurement of nonuniform microstrain in composite laminates (Highsmith and Reifsnider), Spring, 20
- Strains
- Strain-controlled flexural fatigue of unidirectional composites (Agarwal and Joneja), Spring, 6
  - Strain rate, temperature, and humidity influences on strength and moduli of a graphite/epoxy composite (Lifshitz), Spring, 14
- Stress: Evaluation of finite-element software packages for stress analysis of laminated composites (Griffin), Winter, 136
- Stress concentration: Three-dimensional analysis of  $[0/90]_s$  and  $[90/0]_s$  laminates with a central circular hole (Raju and Crews), Winter, 116
- Stresses: Three-dimensional analysis of  $[0/90]_s$  and  $[90/0]_s$  laminates with a central circular hole (Raju and Crews), Winter, 116
- Surface properties: Surface weatherability of glass-fiber-reinforced polyester sheeting. I. effect of modification of resin chemical composition. (Yamasaki), Fall, 84

## T-Y

- Takeda, N., Sierakowski, R. L., and Malvern, L. E.: Microscopic observations of cross sections of impacted composite laminates, Summer, 40
- Unidirectional composites: Strain-controlled flexural fatigue of unidirectional composites (Agarwal and Joneja), Spring, 6
- Walkup, C. M.: *see* Kong, F. M., Walkup, C. M., and Morgan, R. J.
- Whitcomb, J. D.: Approximate analysis of postbuckled through-width delaminations, Fall, 71
- World of composites
- ASTM D-30 forms a new subcommittee, Summer, 37
  - Composite airvane for the Pershing II, Fall, 61
  - Composite leaf spring, Fall, 61
  - Composite materials education at Texas A&M University, Fall, 61

- Design data for composite materials, Spring, 5
- DOD information center on metal composites now in operation, Spring, 3
- Handbook on short-glass-fiber/thermoplastics composites, Fall, 61
- New officers elected at ASTM, Summer, 37
- Pocket computer solutions to composite materials formulas, Spring, 4
- Publications from Japanese society for composite materials, Summer, 37
- Round-robin test to compare tension specimens, Spring, 4
- SAMPE-Delmonte award, Spring, 5
- Skeist surveys the market of advanced composites, Summer, 38
- SPI forecasts 5.2% gain in 1982, Summer, 37
- Students' theses may bring changes in skis and motorcycles, Spring, 3
- Task group on interlaminar fracture toughness, Fall, 61
- Test standards for interlaminar fracture toughness, Winter, 109
- Wind turbine blade by filament winding, Summer, 38
- Yamasaki, R. S.
- Surface weatherability of glass-fiber-reinforced polyester sheeting I. effect of modification of resin chemical composition, Fall, 84
  - Surface weatherability of glass-fiber reinforced polyester sheeting. II. effect of constituents, Winter, 125
- Yang, J. N. and Jones, D. L.: Fatigue of graphite/epoxy  $[0/90/45/-45]_s$  laminates under dual stress levels, Fall, 63
