Foreword

Effects of Radiation on Materials: Fourteenth International Symposium was presented at Andover, MA, 27–30 June 1988. The symposium was sponsored by ASTM Committee E-10 on Nuclear Technology and Applications. N. H. Packan, Oak Ridge National Laboratory, presided as chairman of the symposium with R. E. Stoller, Oak Ridge National Laboratory, and A. S. Kumar, University of Missouri-Rolla, as vice-chairmen. There are two resulting Special Technical Publications (STPs) from the symposium: *Effects of Radiation on Materials: Fourteenth International Symposium (Volumes I and II)*, STP 1046, and *Reduced-Activation Materials for Fusion Reactors*, STP 1047.
