FOREWORD

This Symposium, the fourth of a series of Symposia on Insulating Oils, sponsored by Subcommittee IV on Liquid Insulation of ASTM Committee D-9 on Electrical Insulating Materials, was presented at a Meeting of Committee D-9 which was held in Niagara Falls, Ontario, in November, 1951.

The three previous symposia were published in ASTM BULLETINS No. 146, May, 1947, pages 90 to 100, No. 149, December, 1947, pages 58 to 94, and Special Technical Publication No. 95.

**NOTE.—The Society is not responsible, as a body, for the statements
and opinions advanced in this publication**

CONTENTS

	PAG
Introduction—L. B. Schofield.....	1
Evaluation of Mineral Transformer Oil During Service. Part II: Correlation of Oil Characteristics with Continued Transformer Operation—F. M. Clark.....	3
Evaluation of Mineral Transformer Oil During Service. Part III: An Examination of Selected Transformers—R. G. Call, F. M. Clark, and T. A. McConnell. . .	26
General Discussion	32

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations co-operating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
