FOREWORD

The papers and their discussions included in this Symposium on Light Microscopy were presented at the Sixteenth and Twentieth Sessions of the Fifty-fifth Annual Meeting of the American Society for Testing Materials held in New York, N. Y., on June 25, 1952.

Committee E-1 on Methods of Testing sponsored the Symposium, with Mr. F. G. Foster, Bell Telephone Laboratories, Inc., and Mr. R. P. Loveland, Eastman Kodak Co., acting as co-chairman of the Symposium Committee.

NOTE.—The Society is not responsible, as a body, for the statements
and opinions advanced in this publication.

CONTENTS

| | PAGE |
|---|------|
| Introduction—F. G. Foster and R. P. Loveland | 1 |
| The Methods of Microscopy—Clyde W. Mason | 3 |
| Apparatus for Microscopy—H. W. Zieler | 9 |
| Discussion | 22 |
| Some Applications of Light Microscopy in the Study of Textile Materials—Verne W. Tripp | 25 |
| Discussion | 34 |
| Polarized Light Microscopy and Supplementary Techniques—Walter C. McCrone . . | 35 |
| Discussion | 50 |
| Applications of Light Microscopy in Concrete Research—Katharine Mather | 51 |
| Discussion | 70 |
| The Microscopical Examination of Metallic Specimens—J. R. Vilella | 71 |
| Discussion | 80 |
| Resinography, the Microscopy of Resins and Their Plastics—T. G. Rochow | 81 |
| Methods of Particle Size Analysis—R. P. Loveland | 94 |
| Discussion | 123 |
| General Discussion | 125 |

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations co-operating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
