FOREWORD

This Symposium on Durability and Weathering of Structural Sandwich Constructions includes the seven papers presented at two technical sessions held on Tuesday, Oct. 13, 1959, during the Third Pacific Area National Meeting of the Society at San Francisco, Calif. The sessions were sponsored by ASTM Committee C-19 on Structural Sandwich Constructions.

Mr. J. P. Reese of the Martin Co., Baltimore, Md., acted as symposium chairman and presided over the first session with Mr. R. W. Seniff of the Baltimore & Ohio Railroad, Baltimore, Md. Mr. R. F. Zemer, Douglas Aircraft Co., Inc., Santa Monica, Calif., presided over the second session.

**NOTE.—The Society is not responsible, as a body, for the statements
and opinions advanced in this publication.**

CONTENTS

	PAGE
Introduction—J. P. Reese	1
Effect of Normal Aging on Strength of Glass-Fiber Reinforced-Plastic Honeycomb Cores—A. C. Marshall	3
Effect of Natural Environment on Sandwich Structure with AMS 3722 Paper Honeycomb-Core—Robert F. Zemer	9
Effect of Environmental Exposure on Adhesive-Bonded Structures— A. J. Tuckerman	18
Service Experience with Sandwich Construction—Some Approaches to Problems in Aircraft Applications—J. P. Reese	29
Temperature Rise in Structures Due to Solar Heating—D. K. Rider	43
Discussion	60
Effect of Climatic Variations on Polystyrene Foam-Core Sandwich Panels in Roofs and Walls—Edwin A. Edberg	61
Discussion	67
Experiences with Structural Sandwich in Building Construction—Richard A. Biggs	68

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Much of the data result from the voluntary contributions of many of the country's leading technical authorities from industry, scientific agencies, and government.

Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the ASTM technical committees, or compilations of data developed in special Society groups with many organizations cooperating. A list of ASTM publications and information on the work of the Society will be furnished on request.
