

Index

A

- Abrasion resistance, 72, 73, 75, 76, 100
- Abrasives, zinc-coated, 21-27
- Accelerated testing, 6, 13, 14, 19, 115, 116
- Acid dew point (*see also* Dew point), 67
- Acid rain, 31
- Acid-resistant components, 5
- Acid-resistant masonry, 64, 66
- Adhesion, 23, 72
- Anion detection methods, 35, 36
- ASTM Committee D-1, 36
- ASTM standards
 - A 123, 55, 60
 - A 385, 57
 - A 572, 45
 - A 588, 53, 55, 59
 - D 610, 99
 - D1125, 36
 - D 2092, 60
 - D 4257, 118
- Auger electron spectroscopy, 44, 46, 48, 116

B

- Berger, D. M., 1, 127-132
- Blast cleaning (*see also* Sandblasting), 21-31, 35, 44, 45, 48, 96, 103
- Blisters, 7, 14, 40
- British Ship Research Association, 81

C

- Claus, J. L., 44-50
- Clean Air Act, 63
- Coastal environments (*see also* Marine environments), 27, 96, 98
- Coating defects, 14
- Coatings
 - Acid-resistant, 6
 - Acrylic, 27
 - Aliphatic urethane, 9
 - Alkyd, 6, 9, 14, 33, 35, 36, 100, 103, 105, 111
 - Barium, 36
 - Chlorinated rubber, 9, 27, 97, 100, 102, 105
 - Chromate, 28, 113, 114
 - Epoxy, 7, 8, 23, 25, 27, 64, 97, 100, 102, 105
 - Fluoroelastomer, 63-70
 - Galvanized zinc, 7, 36, 54, 55, 57-60
 - Metallized zinc, 54, 55
 - Oil-based, 6, 100, 102, 103, 105, 111
 - Phenolic, 98, 100, 102, 111
 - Polyurethane elastomer, 71-78
 - Red lead, 6, 23, 25, 28, 36, 113
 - Silicon, 9
 - Vinyl, 6, 27, 65, 98, 100, 102, 103, 105, 111
 - Water-based, 9
 - Zinc, 7, 21-27, 53-62
- Coating/substrate interface, 14, 30, 116, 117

Coating thickness, 6-8, 55, 58, 69, 72, 73, 96, 97, 99-103, 105, 111

Conductivity tests (*see also* Electrochemical tests), 35, 36

Contamination

Chemical, 31, 32

Grease, 29-30, 39, 58

Iron oxide, 37, 38

Moisture (*see also* Moisture effects), 30, 31, 39

Corrosion inhibition, theoretical models, 114, 115

Corrosion scale (*see also* Mill scale), 37, 38

Crack bridging, 74

Cross-linking, 8, 9, 68

D

Delamination, 8, 9, 58, 68, 116

Dew point (*see also* Acid dew point), 30, 31, 39, 64

Dolan, T., 63-70

E

Economic analysis, 56, 57, 81, 82

Electrochemical effects, 32, 40, 41

Electrochemical tests (*see also* Conductivity tests), 116, 117

Emission Mössbauer spectroscopy, 117

F

Federation of Societies for Coatings Technology, 96

Flammability, 68, 72

Fossil fuels, 63, 64, 67

H

Hand cleaning, 8, 28, 38, 40, 96, 103

Health and safety, 25, 118-123

Hendry, C. M., 113-117

I

Image enhancement, 16-18

Infrared thermography, 14-19

Ion sputtering, 46, 48

J

Johnson, W. C., 28-43

L

Long-term tests, 8, 9, 25, 95-112

Lopata, S. L., 5-9

Lowrey, K. W., 21-27

Lwin, M. M., 53-62

M

Martin, J. W., 13-20

Marine environments (*see also* Coastal environments), 22, 25, 54, 76, 79-93

McClain, C. A., 63-70

McKnight, M. E., 13-20

Mill Scale (*see also* Corrosion scale), 7, 23, 37, 38, 58, 96, 97, 103

Moisture effects (*see also* Contamination, moisture), 7, 8, 31, 33, 55, 100, 116

Morcillo, M., 95-112

N

National Occupational Hygiene Service (U.K.), 25

National Safety Council, 118

Nondestructive evaluation, 18

Norwegian Ship Research Institute, 81, 83, 92

O

Oechsle, S. John, 118-123

Oechsle, Sixtus J. III, 71-78

Offshore structures (*see* Marine environments)

Osmotic pressure, 39, 40

P

Paint Research Institute, 114
 pH, 32, 33, 35, 42
 Poretz, I., 79-94
 Portable power tools, 44

Q

Quantitative measurement techniques, 13, 14-17, 19

R

Raman microprobe analysis, 117
 Reactivation of coatings, 79-93
 Reliability analysis, 15
 Repainting, 105, 111
 Rotary peening, 45, 46, 48-50
 Rust, 6, 9, 21, 27, 37-39, 97, 99, 100

S

Salt spray tests, 23, 116
 Sandblasting (*see also* Blast cleaning), 6-8
 Scanning electron microscopy, 32, 33, 35
 Screening tests, 35, 36, 113, 115
 Secondary ion mass spectroscopy, 45, 46, 48, 116
 Service life, 13, 14, 54, 56, 58, 59, 81, 91, 100, 101, 103, 105, 111
 Spatial resolution, 14
 Standards (*see also* ASTM standards)
 American Bureau of Shipping, 81
 American Concrete Institute, 64
 American Conference of Government Industrial Hygienists, 25
 American Hot Dip Galvanizers Association, 57
 American Society of Mechanical Engineers, 64

American Welding Society, 60
 British Standards Institution, 102
 National Association of Corrosion Engineers, 36, 56
 Occupational Safety and Health Administration, 113, 119
 Steel Structures Painting Council, 30, 33, 35, 36, 38, 45, 99
 U.S. Coast Guard, 81
 Steel Structures Painting Council (*see also* Standards), 21, 32, 39, 96, 100, 114
 Surface preparation, 7, 14, 27, 28, 30, 35, 44-46, 55, 72, 100, 103, 111

T

Thermal shock, 66
 Thin-film coatings, 72, 73
 Titanium dioxide processing, 6
 Toxic dusts, 28

U

U.S. Environmental Protection Agency, 63

V

Vibration resistance, 68, 100

W

Waste treatment, 76
 Weathering steel, 53, 54
 Wint, R. F., 1, 127-132
 Work hardening, 45, 48-50

X

X-ray diffraction testing, 37
 X-ray photoelectron spectroscopy, 116
