Foreword

The international symposium on Corrosion and Degradation of Implant Materials was held in Kansas City, Mo., 22–23 May 1978. Sponsored by the American Society for Testing and Materials through its Committees F-4 on Medical and Surgical Materials and Devices and G-1 on Corrosion of Metals, the symposium was arranged by a Joint G-1/F-4 Task Force on Implant Corrosion, made up of members of both ASTM committees. B. C. Syrett, SRI International, and A. Acharya, U.S. Food and Drug Administration, presided as cochairmen of the symposium and also served as editors of this publication.
