FOREWORD

The papers and discussions included in this volume were presented as a Symposium on Testing of Bearings held at the Forty-Ninth Annual Meeting of the American Society for Testing Materials, in Buffalo, N. Y., June 24, 1946.

The Symposium was sponsored by the Administrative Committee on Simulated Service Testing, through a special committee consisting of E. W. Upham, Chrysler Corp., Chairman; J. M. Frankland, Chance Vought Aircraft Division of United Aircraft Corp.; and K. D. Williams, Bureau of Ships, U. S. Navy.

NOTE.—The Society is not responsible, as a body, for the
statements and opinions advanced in this publication.

CONTENTS

	PAGE
Introduction—E. W. Upham.....	1
Life Testing of Plain Bearings for Automotive Engines—E. T. Johnson.....	2
Discussion.....	16
Fatigue Testing Machines for Ball and Roller Bearings—Thomas Barish.....	19
Discussion.....	34
Metallographic Observations of Ball Bearing Fatigue Phenomena—A. B. Jones... 35	35
Discussion.....	49
Fatigue Testing of Roller Bearings—H. R. Gibbons.....	53
Discussion.....	60
Testing of Bearings Under Controlled Load—J. M. Frankland and C. B. Innes... 62	62
