Foreword

The symposium on Analysis of Waters Associated with Alternative Fuel Production was held 4-5 June 1979 in Pittsburgh, Pa. The American Society for Testing and Materials sponsored the event through its Committee D-19 on Water and its Subcommittee D19.33 on Water Associated with Synthetic Fuel Production. Presiding as chairman was L. P. Jackson, Laramie Energy Technology Center, U.S. Department of Energy, who also served as editor of this publication. C. C. Wright, Aramco, served as coeditor.

A Note of Appreciation to Reviewers

This publication is made possible by the authors and, also, the unheralded efforts of the reviewers. This body of technical experts whose dedication, sacrifice of time and effort, and collective wisdom in reviewing the papers must be acknowledged. The quality level of ASTM publications is a direct function of their respected opinions. On behalf of ASTM we acknowledge with appreciation their contribution.
