# Foreword

This publication on Asphalt Pavement Construction: New Materials and Techniques contains papers presented at a symposium held 12 Dec. 1979 at San Diego, California. The symposium was sponsored by the American Society for Testing and Materials through its Committee D-4 on Road and Paving Materials. J. A. Scherocman, Barber-Greene Company, served as symposium chairman and editor of this publication.

## A Note of Appreciation to Reviewers

This publication is made possible by the authors and, also, the unheralded efforts of the reviewers. This body of technical experts whose dedication, sacrifice of time and effort, and collective wisdom in reviewing the papers must be acknowledged. The quality level of ASTM publications is a direct function of their respected opinions. On behalf of ASTM we acknowledge with appreciation their contribution.
