Foreword

The symposium on Underground Corrosion was presented at Williamsburg, Virginia, 26–27 November 1979. The symposium was sponsored by the American Society for Testing and Materials through its Committee G-1 on Corrosion of Metals. Edward Escalante, National Bureau of Standards, presided as symposium chairman and editor of this publication.

A Note of Appreciation to Reviewers

This publication is made possible by the authors and, also, the unheralded efforts of the reviewers. This body of technical experts whose dedication, sacrifice of time and effort, and collective wisdom in reviewing the papers must be acknowledged. The quality level of ASTM publications is a direct function of their respected opinions. On behalf of ASTM we acknowledge with appreciation their contribution.

Contents

Introduction	1
Soil Surveys: Their Synthesis, Confidence Limits, and Utilization for Corrosion Assessment of Soil—F. P. MILLER, J. E. FOSS, AND D. C. WOLF	3
Discussion	22
Corrosion and Corrosivity of Steel in Norwegian Marine Sediments—K. P. FISHER AND BENTE BUE	24
An Overview of the Anaerobic Corrosion of Underground Metallic Structures, Evidence for a New Mechanism—W. P. IVERSON	33
A Statistical Probability Method for Soil Resistivity Determination—BERNARD HUSOCK	53
Discussion	60
Simplified Method for the Electrical Soil Resistivity Measurement—VICTOR CHAKER	61
Some Field Studies of the Correlation Between Electromagnetic and Direct Current Measurements of Ground Resistivity—S. A. ARNONE	92
Discussion	109
On the Estimation of the Corrosion Rates of Metals in Soils by Electrochemical Measurements—E. T. SERRA AND W. A. MANNHEIMER	111
Principles of Measurement and Prevention of Buried Metal Corrosion by Electrochemical Polarization—D. A. JONES	123
Practical Aspects of Underground Corrosion Control—J. B. LANKES	133
Corrosion of Buried Pipes and Cables, Techniques of Study, Survey, and Mitigation—K. G. COMPTON	141
Discussion	154
Eight-Year Evaluation of the sti-P₃ System for Protection of Buried Steel Tanks—J. B. VRABLE	156
Discussion	165
The Relationship of Coatings and Cathodic Protection for Underground Corrosion Control—A. C. TONCRE	166
Replaceable Deep Groundbed Anode Materials—J. F. TATUM	182
Summary	204
Index	209
