## Foreword

The third symposium on Test Methods for Vertebrate Pest Control and Management Materials was sponsored by the American Society for Testing and Materials, through its Committee E-35 on Pesticides, in cooperation with the Ninth California Vertebrate Pest Conference. The meeting was held in two half-day sessions on 7 March 1980 in Fresno, Calif. The symposium chairmen were D. A. Wade, Texas Agricultural Extension Service, and W. B. Jackson, Bowling Green State University. The session chairmen were W. B. Jackson, J. R. Beck, Ecological Environmental Consultant Services, Inc., R. E. Marsh, University of California at Davis, and Robert Timm, University of Nebraska at Lincoln. Serving as editors of this publication were E. W. Schafer, Jr., and C. R. Walker, both of the U.S. Fish and Wildlife Service.

## A Note of Appreciation to Reviewers

This publication is made possible by the authors and, also, the unheralded efforts of the reviewers. This body of technical experts whose dedication, sacrifice of time and effort, and collective wisdom in reviewing the papers must be acknowledged. The quality level of ASTM publications is a direct function of their respected opinions. On behalf of ASTM we acknowledge with appreciation their contribution.
