advanced in this publication.

Foreword

The symposium on which these proceedings are based, the fifth symposium on Aquatic Toxicology and Hazard Assessment, was the fifth in a series of annual symposia on Aquatic Toxicology sponsored by ASTM. This meeting, held 7–8 Oct. 1980, in Philadelphia, Pa., was sponsored by ASTM Committee E-35 on Pesticides and its Subcommittee E35.23 on Safety to Aquatic Organisms, in cooperation with ASTM Committee D-19 on Water, its Subcommittee D19.21 on Effluent Testing, and the Water Quality Section of the American Fisheries Society.

The cochairmen presiding were J. G. Pearson, U.S. Environmental Protection Agency, R. B. Foster, EG&G Bionomics, and W. E. Bishop, Procter & Gamble Co., all of whom also served as editors of this publication.

A Note of Appreciation to Reviewers

This publication is made possible by the authors and, also, the unheralded efforts of the reviewers. This body of technical experts whose dedication, sacrifice of time and effort, and collective wisdom in reviewing the papers must be acknowledged. The quality level of ASTM publications is a direct function of their respected opinions. On behalf of ASTM we acknowledge with appreciation their contribution.
