Foreword

The fourth symposium on Vertebrate Pest Control and Management Materials was held on 26 Feb. 1982 in Monterey, Calif. This symposium was the fourth in a series of symposia on test methods for vertebrate pest control and management materials. The sponsors of the symposium were ASTM Committee E-35 on Pesticides and its Subcommittee E35.17 on Vertebrate Control Agents, chaired by William B. Jackson, Bowling Green State University. The symposium chairman was Dale E. Kaukeinen, ICI Americas Inc., who also served as editor of this publication.

A Note of Appreciation to Reviewers

The quality of the papers that appear in this publication reflects not only the obvious efforts of the authors but also the unheralded, though essential, work of the reviewers. On behalf of ASTM we acknowledge with appreciation their dedication to high professional standards and their sacrifice of time and effort.
