# RADIATION EMBRITTLEMENT AND SURVEILLANCE OF NUCLEAR REACTOR PRESSURE VESSELS: AN INTERNATIONAL STUDY

A conference  
sponsored by  
International Atomic Energy Agency  
and ASTM Committee E-10 on  
Nuclear Technology and Applications  
Vienna, Austria, 19–21 Oct. 1981

ASTM SPECIAL TECHNICAL PUBLICATION 819  
Lendell E. Steele, Naval Research Laboratory, editor

# Foreword

The basis for this volume is a conference sponsored by the United Nations International Atomic Energy Agency (IAEA) held in Vienna, Austria, on 19–21 October 1981. ASTM Committee E-10 on Nuclear Technology and Applications has sponsored publication.

Lendell E. Steele, Naval Research Laboratory, served as Specialist Meeting Chairman and has edited this publication.

## A Note of Appreciation to Reviewers

The quality of the papers that appear in this publication reflects not only the obvious efforts of the authors but also the unheralded, though essential, work of the reviewers. On behalf of ASTM we acknowledge with appreciation their dedication to high professional standards and their sacrifice of time and effort.
