

Atmospheric Corrosion Investigation of Aluminum-Coated, Zinc-Coated, and Copper-Bearing Steel Wire and Wire Products: A Thirty-Two Year Report

**Sponsored by ASTM Committee A5 on
Metallic-Coated Iron and Steel Products**

**Beryle G. Sweet
Thomas C. Britton, Jr.**

ASTM Data Series: DS 65
Revision of STP 585A
ASTM Publication Code Number (PCN):
05-015950-02

ASTM ■ 1916 Race Street ■ Philadelphia, PA 19103
Printed in the U.S.A.

Contents

Author's Commentary	1
Scope of A5 and Authorization	2

TEXT

Chapter 1—Summary of Results	5
Chapter 2—Test Plan	6
Chapter 3—Description of the Test Specimens	8
Chapter 4—Coating Data	10
Chapter 5—Mechanical Properties	11
Chapter 6—Materials and ASTM Specifications	12
Chapter 7—Inspection of Wire and Wire Products	13
Chapter 8—Breaking Strength Loss	15
Chapter 9—Summary	16

TABLES

Table 1—Exposure sites	19
Table 2—Process description of test specimens	19
Table 3—Base metal analysis of unfabricated and fabricated wires	20
Table 4—Coating weights and processes of test specimens	21
Table 5—Coating data on test specimens	22
Table 6—Initial mechanical properties of unfabricated wires	23
Table 7—Description of aluminum conductor wire	23
Table 8—32-year test results on unfabricated wire	24
Table 9—32-year test results on farm-field fence	25
Table 10—32-year test results on barbed wire	27
Table 11—32-year test results on chain-link fence fabric	28
Table 12—32-year test results on 7-wire strand	30
Table 13—Wire condition abbreviations and symbols	31
Table 14—Aluminum-coated, average corrosion rates to initial rusting	32
Table 15—Aluminum-coated, average corrosion rates to complete rust	32
Table 16—Zinc-coated, average corrosion rates to initial rusting	33
Table 17—Zinc-coated, average corrosion rates to complete rust	33
Table 18—Style, coating metal, coating weight, and coating method of ACSR specimens	34
Tables 19 through 35—Summary of breaking strengths of wires removed during the 30-year period 1961 to 1991	35
Table 36—Results of linear regression analysis of loss in breaking strength	45
