

DS71

ISOCORRAG International Atmospheric Exposure Program: Summary of Results

Table of Contents

Preface

Acknowledgments

Dedication

Chapter 1: Introduction

Chapter 2: Experimental

- Exposure Sites
- Materials
- Specimens
- Exposure Program
- Environmental Monitoring
- Exposure Initiation
- Specimen Evaluation

Chapter 3: Results

- Environmental Data
- Mass Loss Data
- Data Analysis
- Corrosivity Classification

Long-Term Kinetics

Chapter 4: Analyses of Results and Summary

- Characteristics of the Database
- Comparison of the Atmospheric Corrosion Rates of Flat and Wire-Helix Specimens
- Environmental Effects: 1 Year Corrosion Rates
- Derivation of Dose-Response Functions for the
- Normative Corrosivity Category Derivation

Long-Term Kinetics of Structural Metals

Chapter 5: Application of Results

References
