

STP 1076

Geosynthetics: Microstructure and Performance

Ian D. Peggs, editor

ASTM
1916 Race Street
Philadelphia, PA 19103

Contents

Overview	v
Is Microstructure Important to the Performance of Geosynthetics?—J. L. DANIEL	1
Thermal Analysis of Nonwoven Polyester Geotextiles—R. W. THOMAS AND K. L. VERSCHOOR	4
The Use of Thermal Analysis for the Evaluation of the Durability of a 24-Year-Old PVC Geomembrane—D. A. CAZZUFFI AND S. VENESIA	17
Service Life of Geosynthetics in Hazardous Waste Management Facilities— R. E. LANDRETH	26
Microscopic Evaluation of High-Density Polyethylene Geomembrane Field-Welding Techniques—A. L. ROLLIN, A. VIDOVIC, R. DENIS, AND M. MARCOTTE	34
Nitric Acid Induced Degradation of High Density and Linear Medium Density Polyethylene: Physical Property Sensing Techniques—L. G. TISINGER AND C. E. CARRAHER, JR.	48
Brittle Fracture in Polyethylene Geomembranes—I. D. PEGGS AND D. S. CARLSON	57
Stress Cracking Morphology of Polyethylene (PE) Geomembrane Seams— Y. H. HALSE, R. M. KOERNER AND A. E. LORD, JR.	78
Influence of Geotextile Structure on Pore Size Determination—J. M. RIGO, F. LHOTE, A. L. ROLLIN, J. MLYNAREK, AND G. LOMBARD	90
Structural Study of Porometry and Filtration Opening Size of Geotextiles— Y. H. FAURE, J. P. GOURC, AND P. GENDRIN	102
Microscopic Stereological Methods to Characterize Orientation of Nonwoven Geotextile Fibers—J. H. LONG AND K. W. K. LAU	120
Microstructural Analysis of a Soil/Geotextile System—J. MLYNAREK, A. L. ROLLIN, J. LAFLEUR, AND G. BOLDOC	137
Effects of Freezing on the Microstructure of Geotextiles—K. S. HENRY, S. TAYLOR, AND J. E. INGERSOLL	147
Author Index	165
Subject Index	167
