Overview

25TH ANNIVERSARY INVITED PAPER

The E35.22 Symposium at 25 Years, Still Growing?--A. D. Lindsay

DEVELOPMENTS IN PESTICIDE FORMULATIONS

Use of Carbodiimides as Stabilizing Agents to Deliver Water—Labile Active Ingredients in Liquid Systems Including Aqueous Medium—Amitraz as a Case Study—K. S. Narayanan, D. I. Jon, and G. Beestman

Dearomatized Fluids Used in Phenoxy Herbicides for Right-of-Way Sprays—M. A. Krevalis

Investigation into the Use of Hydroxy-Containing Amides for Oil Flowable Formulations—M. A. Krevalis, R. M. Kowalik, K. K. Kuo, and K. K. Chokshi

Increasing the Biological Activity of Weak Acid Herbicides by Increasing and Decreasing the pH of the Spray Mixture—J. M. Green and T. Hale

Influence of Clethodim Formulation and Oil Adjuvants on Weed Control and Overcoming Herbicide Antagonism—R. K. Zollinger and K. A. Howatt

Characterization of Sulfonated Lignin Dispersants by Hydrophobic Interactive Chromatography—T. Winowski, S. Lebo, K. Gretland, and J. Gustafsson

INNOVATIONS IN ADJUVANT CHEMISTRY

Fatty Amine Alkoxylates as Effective Adjuvants for Strobilurin Fungicide Applications on Field and Orchard Crops—J. L. Hazen
Ethylenediamine Alkoxylates and Their Use as Adjuvants in Glyphosate Formulations—C. M. Elsik and H. M. Stridde

Suitable Adjuvant to Maximize Trifloxysulfuron Efficacy and Early Assessment of Herbicide Efficacy Using Chlorophyll Fluorescence—S. Singh and M. Singh

Influence of Adjuvants on Weed Control from Tribenuron—R. K. Zollinger

Improving the Infiltration of Water through Repellent Soils Using Synergistic Surfactant Blends Based on Alkyl Glucosides and Ethylene Oxide-Propylene Oxide Block Copolymers—P. T. Bially, S. J. Kostka, and R. C. Buckman

ADVANCES IN APPLICATION TECHNOLOGY RESEARCH

Factors Influencing the Performance of Spray Delivery Systems:
A Review of Recent Developments—P. C. Miller and C. R. Tuck

Field-Collected and AGDISP-Predicted Spray Flux from an Aerial Application—W. C. Hoffmann

Flight Line Variability in Rotary Atomizer Drop Size Distribution—M. E. Teske, H. W. Thistle, R. C. Reardon, D. C. Davies, G. Cormier, R. S. Cameron, M. Y. LeClerc, and A. Karipot

Comparisons of Drift Reducing/Deposition Aid Tank Mixes for Fixed Wing Aerial Applications—R. E Wolf, D. R. Gardisser, and T. M. Loughin

Indexes
