

STP 1477 Biofuels

Table of Contents

Overview

Analytical and Evaluation of Properties

Analytical Characterization of Sediment Formed in Soy Oil-Based B20 Biodiesel—

T.P. McGinnis, K.B. Peyton

Oxidation Stability of Soy and Palm Based Biodiesels Evaluated by Pressure Differential

Scanning Calorimetry—*R. Artiaga, J. López-Beceiro, J. Tarrío-Saavedra, J.L. Mier, S. Naya, C. Gracia*

Water Content Determination in Biodiesel: Optimization of Methodology in Coulometric

Karl Fischer Titration—*M.P. Vicentim, M.V.B. Sousa, V. Fernandes da Silva, V.L. Mateus, J.M. Rodrigues, V.S. da Cunha*

Standard Reference Data for the Thermophysical Properties of Biofuels—*M. O. McLinden,*

T. J. Bruno, M. Frenkel, and M. L. Huber

Challenge of Analytical Characterization of Biofuels—*R. A. Kishore Nadkarni*

Monitoring and Blending Biofuels Using a Microfluidic Sensor—*D. Sparks, R. Smith, D. Riley,*

N. Tran, J. Patel, A. Chimbayo, and N. Najafi

Compositional Analysis of Microwave Chemically Treated Biomass Samples—*L. N. Tenlep,*

D. E. Raynie, and N. J. Thiex

Calibration Standards for Biodiesel Fuels—*B. H. Clampitt and J. B. Sardisco*

A Simple Green Method for Biodiesel Iodine Number Determination—*J. A. Aricetti,*

A. J. da Silva Maciel, O. C. Lopes, and M. Tubino

Potentiometric Titration as an Alternative Technique for the Determination of the Iodine Value

in Biodiesel Matrix from Palm Oil—*R. V. P. Leal, P. P. Borges, and P. R. Seidl*

Acid Number Determination of Biodiesel by Potentiometric Titration Using Different

Methods—*M. A. Gonçalves, K. C. Cunha, S. P. Sobral, F. B. Gonzaga, I. C. S. Fraga, and P. P. Borges*

Determination of Ester Content in Different Kinds of Biodiesel—*F. D. Faria, K. O. Cerqueira,*

G. P. Leal, R. C. L. Pereira, and M. J. R. G. Neto

Synthetic Jet Fuel Blend Analysis Using Mid-Infrared Spectroscopy—*D. Wilks*

Determining the Oxidation Stability of Biodiesel and Blends Using a New Rapid Small Scale Oxidation Test (RSSOT)—ThePetroOXY—*V. Wierzbicki*

The Impact of Fischer–Tropsch Diesel on the Oxidation Stability of Biodiesel (FAME) Blends—*A. Blignaut, L. Collier, and M. Pretorius*

Application of Thermogravimetric Analysis for the Proximate Analysis of Livestock Wastes—*K. B. Cantrell, J. H. Martin, II, and K. S. Ro*

pH Measurement in Bioethanol by Using Different Electrodes and according to International Standards—*P. P. Borges, I. C. S. Fraga, B. S. R. Marques, J. C. Dias, and V. S. Cunha*

Cold Flow Properties of Biodiesel by Automatic and Manual Analysis Methods—*R. O. Dunn*

The Influence of the Addition of Oils in the Diesel Fuel Density—*D. M. do Espirito Santo Filho, F. L. B. De Abreu, R. G. Pereira, J. J. P. dos Santos Júnior, J. R. R. Siqueira, P. L. S. Ferreira, T. de Paula Barbosa, L. S. Lima, and F. de Oliveira Baldner*

Biodiesel Fuels and Base Oils

Synthesis of Biodiesel from Tobacco and Waste Frying Oil Using Heterogeneous $\text{KHCO}_3/\text{Al}_2\text{O}_3$ Catalyst—*G. Anastopoulos, A. Deligiannis, S. Kalligeros, D. Karonis, F. Zannikos, and E. Lois*

Performance Characteristics of a Dual Fuel Engine Operated with Mahua Biodiesel and Liquefied Petroleum Gas—*N. Kapilan, T. P. Ashok Babu, and R. P. Reddy*

Biodiesel Synthesis via Recyclable Heterogeneous Catalyst: Titanium Niobate Nanosheet—*E. J. Mercer and F. T. Halaweish*

Experimental Investigations of Preheated Jatropha Oil Fuelled Direct Injection Compression Ignition Engine—Part 1: Performance, Emission, and Combustion Characteristics—*A. K. Agarwal and A. Dhar*

Experimental Investigation of Preheated Jatropha Oil Fuelled Direct Injection Compression Ignition Engine—Part 2: Engine Durability and Effect on Lubricating Oil—*A. K. Agarwal and A. Dhar*

Characterization of Density of Biodiesel from Soybean, Sunflower, Canola, and Beef Tallow in Relation to Temperature, Using a Digital Density Meter with a Metrological Point of View—*D. M. E. Santo Filho, F. L. B. de Abreu, R. G. Pereira, J. R. R. Siqueira, J. J. P. dos Santos Júnior, and R. J. Daroda*

Lipase-Catalyzed Production of Biodiesel from Tallow—*J. Han, P. Silcock, M. Bell, and J. Birch*

CO₂-Neutral Fuels and Lubricants Based on Second Generation Oils such as Jatropha—*D. Spaltmann, A. von Gablenz, and M. Woydt*

The Potential of Biodiesel Production from Fatty Acid Methyl Esters of Some European/Mediterranean and Cosmopolitan Halophyte Seed Oils—*V. T. Sotiroudis, T. G. Sotiroudis, and F. N. Kolisis*

Characterization of Corn Grains for Dry-Grind Ethanol Production—*S. Srichuwong, J. Gutesa, M. Blanco, S. A. Duvick, C. Gardner, and J.-L. Jane*

Glycerol Tri-Ester Derivatives as Diluent to Improve Low Temperature Properties of Vegetable Oils—*S. N. Shah, B. R. Moser, and B. K. Sharma*
