

STP 1494 NATURAL CEMENT

Table of Contents

PERSPECTIVES: The RE-INTRODUCTION of NATURAL CEMENT—*L. Edison*

FIRST AMERICAN NATURAL CEMENT CONFERENCE

The Natural Cement Revival—*K. Uracius*

An Overview of the History and Economic Geology of the Natural Cement Industry at Rosendale, Ulster County, New York—*D. Werner, K.C. Burmeister*

Petrography: Distinguishing Natural Cement from Other Binders in Historical Masonry Construction Using Forensic Microscopic Techniques—*J.J. Walsh*

Formulating with Rosendale Natural Cement—M.P. Edison

The Use of Natural Cements in Nineteenth Century United States Military Fortifications and its Long-Term Performance at Fort Jefferson—*M.C. Martin*

SECOND AMERICAN NATURAL CEMENT CONFERENCE

Natural Cement in the 21st Century—*M.P. Edison*

Masonry Repairs at Cheshire Mill No. 1, Harrisville, New Hampshire—*L. Willet, F. O'Conner*

Roman Cement Mortars in Europe's Architectural Heritage of the 19th Century—*J. Weber, N. Gadermayr, K. Bayer, D. Hughes, R. Kozlowski, M. Stillhammerova, D. Ullrich, and R. Vyskocilova*

Calcination of Marls to Produce Roman Cement—*D.C. Hughes, D. Jaglin, R. Kozlowski, N. Mayr, D. Mucha, and J. Weber*

Hydration Processes in Pastes of Roman and American Natural Cements—*R. Vyskocilova, W. Schwarz, D. Mucha, D. Hughes, R. Kozlowski, and J. Weber*

SUPPLEMENTAL MATERIALS

1. ASTM C 10-06 Standard Specification for Natural Cement
2. Report of Committee C on Standard Specifications for Cement (1904)
3. Excerpt: *Internal Navigation* (1817)—*S. Young*
4. Excerpt: *Essays on Hydraulic and Common Mortars and on Lime-Burning*, (1838)—*J.G. Totten*
5. Excerpt: *Handbook of Railroad Construction; for the use of American Engineers*, (1857)—*G.L. Vose*
6. Excerpt: *American Cements*, (1898)—*U. Cummings*
