Masonry

Table of Contents

WATER MANAGEMENT and EFFLORESCENCE

Efflorescence: Evaluation of Published Test Methods for Brick and Efforts to Develop a Masonry Assembly Test Method—J.R. Chin, B. Behie

Test Method for Determining the Efflorescence Potential of Masonry Materials Based on Soluble Salt Content—J.P. Sanders, D.A. Brosnan

Detailing Masonry Veneer/Steel Stud Backup Systems at Fenestration Systems to Avoid Moisture Problems—N.V. Krogstad, R.A. Weber

A Laboratory Evaluation of Plastic (Stucco) Cement-Based Plaster as a Barrier to Water Penetration of Concrete Masonry Construction at Hurricane Force Wind Speeds—R. Flynn, J. Gulde

STRENGTH and FREEZE-THAW TESTING

Comparative Study of Freeze and Thaw Test Procedures on Molded Brick—R.A. Cyphers, A.R. Whitlock

Proposed Masonry Specified Compressive Strength Requirements—R. Bennett

PERFORMANCE and FAILURE ANALYSIS and REPAIRS

Improving the Thermal Resistance of Brick Masonry Systems—J.P. Sanders, D.A. Brosnan

Evaluation and Repair of Thin Brick Veneer Facades—C.L. Searls, J.L. Leafblad

Design and Use of Expansion Joints in New and Existing Clay Masonry Wall Systems—M.C. Farmer, E.A. Gerns

Common Sense and Masonry Repair—K.A. Pashina, S.M. Talafous
