Historical Reviews
North American Cinderella Pipe Story—A Look at PVC Pipes Climb to the Top—R. Walker
A Brief History of the Introduction, Development and Growth of the Corrugated Polyethylene Pipe Industry in North America—J. B. Goddard
Hydrostatic Stress Board of PPI—Its Contributions Towards the Establishment of the Most Appropriate Working Stress for Thermoplastics Piping Materials—S. A. Mruk
Long-Term Hydrostatic Strength and Design of Thermoplastic Piping Materials and the Development of Polyethylene Compounds—S. Boros
NSF 14: Shaping the Quality of the Plastic Piping Industry—A. Ciechanowski

Design
A Service Life Assessment of Corrugated HDPE Drainage Pipe—M. Pluimer
Designing Stormwater Chambers to Meet AASHTO Specifications—T. J. McGrath, D. Mailhot
Design and Performance of Plastic Drainage Pipes in Environmental Containment Facilities—R.W. Brachman
Design Development of Large Thermoplastic Chambers for Storm Water Retention—B.J. Bass, T.J. McGrath, D. Mailhot, K.-W Lim
Technical Considerations When Fabricating PVC Pressure Fittings—T. Franzen, C. Fisher, S. Rahman
Deflection Lag, Load Lag and Time Lag of Buried Flexible Pipe—A. Howard

Testing and Failure Analysis
Stress Crack Protocol for Finished Product Testing of Corrugated High Density Polyethylene Pipe—J.M. Kurdziel
Tensile Testing of a Push-On Restrainted Joint PVC Pipe—C. Fisher, G. Quesada
Building Knowledge from Failure Analysis of Plastic Pipe and Other Hydraulic Structures—P.A. Sharff, S.C. Bellemare, L.M. Witmer

Environmental Stress Cracking of Commercial CPVC Pipes—R.I. Hauser

How to Crawl Through a Pipe—Terminology—A. Howard

New Materials and Applications
Yesterday, today, and Now: Polyamide 11 Gas Piping at 200 psig Under the New Rules—F. Volgstadt

Polyamide 12 Natural Gas Distribution Systems Operating at Pressure Greater than 125 psig—R. Wolf

Plastic Tubing Prospect to Replace Cast Iron Conduit in Steam Heating Systems—I. Zhadanovsky

Installation
Specifying Plastics Pipes for Trenchless Applications—L.J. Petroff

Trenchless Case History—University of Denver’s Use of High Performance Restrained-Joint Water Distribution Pipe—S.G. Gross, B. Tippets

Unique Calibratin Case Study for Predictive Model of Installation Loads for Directional Drilled Fusible PVC Pipe—R. Botteicher, S.T. Ariaratnam

Axial Response of HDPE Pipes as a result of Installation by Directional Drilling—I.D. Moore, R. Brachman, J.A. Cholewa, A.G. Chehab
