Table of Contents

Evaluation of Fire-resistant Clothing Using an Instrumented Mannequin: A Comparison of Exposure Test Conditions Set With a Cylinder Form or Mannequin Form—M.Y. Ackerman, E.M. Crown, J.D. Dale, S. Paskaluk

Translation between Heat Loss Measured Using Guarded Sweating Hot Plate, Sweating Manikin, and Physiologically Assessed Heat Stress of Firefighter Turnout Ensembles—K. Ross, R. Barker, A.S. Deaton

Analysis of Physical and Thermal Comfort Properties of Chemical Protective Clothing—S. Wen, G. Song, S. Duncan

Chemical Protection Garment Redesign for Military Use by the Laboratory for Engineered AQ1 Human Protection Years 2005–2011—K.L. Hultzapple, S.S. Hirsch, J. Venafro, S. Frumkin, J. Brady, C. Winterhalter, S. Proodian

Evaluation of Thermal Comfort of Fabrics Using a Controlled-Environment Chamber—J.D. Pierce, Jr., S.S. Hirsch, S.B. Kane, J.A. Venafro, C.A. Winterhalter

Effects of Overgarment Moisture Vapor Transmission Rate on Human Thermal Comfort—C. Winterhalter, Q. Truong, T. Endrusick, A. Cardello, L. Lesher

Non-destructive Test Methods to Assess the Level of Damage to Firefighters’ Protective Clothing—M. Rezazadeh, D.A. Torvi

Dual-mode Analytical Permeation System for Precise Evaluation of Porous and Nonporous Chemical Protective Materials—D.L. MacTaggart, S.O. Farwell, Z. Cai, P. Smith

Factors Influencing the Uptake Rate of Passive Adsorbent Dosimeters Used in the Man-in-Simulant-Test—R.B. Ormond, R. Barker, K. Beck, D. Thompson, A.S. Deaton
Destructive Adsorption for Enhanced Chemical Protection—S.K. Obendorf, E.F. Spero

Protective Clothing for Pesticide Operators: The Past, Present, and Proposed Plans—A. Shaw

Garment Specifications and Mock-ups for Protection from Steam and Hot Water—S. Yu, M. Strickfaden, E. Crown, S. Olsen

Development of a Test Apparatus/Method and Material Specifications for Protection from Steam under Pressure—M.Y. Ackerman, E.M. Crown, J.D. Dale, G. Murtaza, J. Batcheller, J.A. Gonzalez

Apparatus for Use in Evaluating Protection from Low Pressure Hot Water Jets—S.H. Jalbani, M.Y. Ackerman, E.M. Crown, M. van Keulen, G. Song

Characterization of the Resistance of Protective Gloves to Pointed Blades—P.I. Dolez, M. Azaiez, T. Vu-Khanh

A New Test Method to Characterize the Grip Adhesion of Protective Glove Materials—C. Gauvin, A. Airoldi, S. Proulx-Croteau, P.I. Dolez, J. Lara
