

STP 1545

**Durability of Building and Construction Sealants and Adhesives: 4th Volume**

---

*Table of Contents*

**Preface**

**Overview**

**Laboratory Testing and Specialized Outdoor Exposure Testing**

Bond Strength between Cast-in-Place Ultra-High-Performance-Concrete and Glass Fiber Reinforced Polymer Plates using Epoxy Bonded Coarse Silica Sand—*D. Chen, R. El-Hacha*

Characterization of Adhesive Joints for Hybrid Steel-Glass Beams by Means of Simplified Small Scale Tests—*M. Feldmann, B. Abeln, E. Preckwinkel*

Durability of Acrylic Sealants Applied to Joints of Autoclaved Lightweight Concrete Walls: Evaluation of Exposure Testing—*H. Miyauchi, M.A. Lacasse, N. Enomoto, S. Murata, K. Tanaka*

In Situ Measurement of Compression Set in Building Sealants during Outdoor Aging—*G.T. Schueneman, C.G. Hunt, S. Lacher, C.C. White, D.L. Hunston*

Preliminary Evaluation of the Mechanical Properties and Durability of Transparent Structural Silicone Adhesive (TSSA) for Point Fixing in Glazing—*S. Sitte, M.J. Brasseur, L.D. Carbary, A.T. Wolf*

Adhesive Joints in Glass and Solar Engineering—*B. Weller, I. Vogt*

Outline of Testing and Evaluation Program used in Selection of Adhesives for Transparent Adhesive Joints in All-Glass Load-bearing Structures—*B. Weller, F. Nicklisch, V. Prautzsch, I. Vogt*

A Systematic Approach to the Study of Accelerated Weathering of Building Joint Sealants—*C.C. White, D.L. Hunston, K.T. Tan, J.J. Filliben, A.L. Pintar, and G. Schueneman*

**Factors Influencing the Durability of Sealed Joints and Adhesive Fixations**

Durability of Cold-Bent Insulating Glass Units—*K. Besserud, M. Bergers, A.J. Black, L.D. Carbary, A. Mazurek*

The Mechanism of Adhesion Improvement of Elastomeric Silicone Sealants to Difficult-to-Bond Polymeric Substrates Through Reactive or Interpenetrating Molecular Brushes—*W.S. Gutowski, G. Toikka, S. Li*

Mechanical Characteristics of Degraded Silicone Bonded Point Supports—*A. Hagl*

Glass Unit Corner Loading - Key Parameter in Durability—*A. Hagl and O. Dieterich*

Mechanisms of Asphalt Blistering on Concrete Bridges—*B.W. Hailesilassie and M.N. Partl*

Ways of Improving the Interfacial Durability of Silicone Adhesives in Building Applications—*P. Vandereecken and I. Maton*

## **Development of New Test Methods and Performance-Based Specifications**

Attempt at Quantification of Surface Degradation and Evaluation of Relationship between Outdoor and Accelerated Exposure of Construction Sealants—*N. Enomoto, A. Ito, K. Tanaka*

Development of a Non-Destructive Evaluation Practice of Installed Weatherproofing Sealant Joints Using a Rolling Device - An Introduction to ASTM C 1736—*D.N. Huff*

Weathering Evaluation of Structural Silicone Sealants used in Korea—*J. Jung, K. Hahn, H. Lee*

Evaluation of Sealed Joint Performance for the Selection of Sealants Suitable for Use in Autoclaved Lightweight Concrete Panels—*H. Miyauchi, M.A. Lacasse, S. Murata, N. Enomoto, K. Tanaka*

Potential of Dynamic-mechanical Analysis towards a Complementary Material and System Testing Approach for Structural Glazing—*C. Recknagel*

A Test Method for Monitoring Modulus Changes during Durability Tests on Building Joint Sealants—*C.C. White, D.L. Hunston, K.T. Tan*

## **Field Experience with Sealed Joints and Adhesive Fixation**

Moisture Sensitive Adhesives and Flooring Adhesive Failures—*P.E. Nelson, E. Hopps*

Case Studies of Adhesive and Rigid Insulation Board Failures Due to Moisture in Low Sloped Roofing Assemblies—*D.S. Slick, N.A. Piteo, D.A. Rutila*

## **Performance under Seismic Loads**

Seismic Racking Test Evaluation of Silicone Used in a Four-Sided Structural Sealant Glazed Curtain Wall System—*K.A. Broker, S. Fisher, and A. M. Memari*

Evaluation of the Structural Sealant for Use in Four-Sided Structural Sealant Glazing Curtain Wall System for a Hospital Building—*A.M. Memari, S. Fisher, C. Krumenacker, K. A. Broker, R.-U. Modrich*

A Review of Structural Silicone Glazing Systems Subjected to a MegaEarthquake—*E. Bull, J. Cholaky*
