Metal-On-Metal Total Hip Replacement Devices

Table of Contents

Overview

Post-Market Surveillance

Metal-on-Metal and Other Bearing Trends Among Fellows of the AAOS—K.L. Urish, M. Amini, W.M. Mihalko

Diagnostic Assessment

Serum Metal Ion Concentrations Decline (But Do Not Rapidly Normalize) Following Revision of Metal-on-Metal Total Hip Bearings—J.A. Browne, Z. Wan, W.M. Novicoff, Q. Cui, T.E. Brown

Low Cobalt and Chromium Levels from a Single Metal-on-Metal Total Hip Arthroplasty Implant—A.F. Chen, M.T. Pigott, E.J. McClain, B.A. Klatt

A Prospective Case Series Examining the Use of a Large-Head Metal-on-Metal Total Hip System—V. Chatrath, I. Catelas, P.E. Beaulé

A Method to Isolate and Characterize Wear Debris from Synovial Fluid and Tissues—A.E. Kavanaugh, P. Benya, F. Billi

Lymphocyte Reactivity to Nickel Correlates with Reported High-Pain Levels in Patients with Total Joint Arthroplasties: Implications for Pain-Related Hypersensitivity Responses—M.S. Caicedo, L. Samelko, N.J. Hallab

Retrieval Analysis

Approach, Rationale, and Examples of Metal-on-Metal Device Retrieval and Analysis for Evidence-Based Education—J. Lemons, D. Sarver, P. Beck, D. Petersen, A. Eberhardt

Method of Characterizing Fretting and Corrosion at the Various Taper Connections of Retrieved Modular Components from Metal-on-Metal Total Hip Arthroplasty—

Normal and Adverse Wear Patterns Created In-Vivo on Metal-on-Metal Surfaces—

Analysis of Comprehensive Measurements from Retrieved Implants to Determine Factors Contributing to Failure Modes and Wear—P. Campbell, E. Ebramzadeh, S. Azad, F. Billi, Z. Lu, H. McKellop

A Protocol to Assess the Wear of Head/Neck Taper Junctions in Large Head Metal-on-Metal (LHMoM) Hips—R.J. Underwood, S.B. Kocagoz, R. Smith, R.S. Sayles, R. Siskey, S.M. Kurtz, P.M. Cann

Microstructure of Retrievals Made from Standard Cast HC-CoCrMo Alloys—
P. Stemmer, R. Pourzal, Y. Liao, L. Marks, M. Morlock, J.J. Jacobs, M.A. Wimmer, A. Fischer

Pre-Clinical Testing

Denatured Protein Deposits Identified on Simulator and Explant Hip Bearings—
M. Burgett, T. Donaldson, I.C. Clarke, C. Savisaar, J. Bowsher
