MEETINGS

ASTM Committee C27 meets once a year in December, with approximately 35 members attending two days of technical meetings.

MEMBERSHIP IN ASTM INTERNATIONAL AND COMMITTEE C27

ASTM International welcomes all technical experts with a desire to work toward further development of precast concrete standards. Membership and participation in the activities of Committee C27 provide the opportunity to:

- Network with professionals worldwide;
- Participate in informational webinars;
- Receive a free volume of the Annual Book of ASTM Standards (print, CD, or virtual volume);
- Enjoy discounts on all ASTM publications;
- Receive free subscriptions to ASTM Standardization News and ASTM eNews; and
- Benefit from reduced attendance fees at ASTM symposia and technical workshops.

The annual fee to be an informational or participating member of ASTM International is $75 USD. Annual membership provides access to multiple technical committees at no additional cost. Visit www.astm.org/JOIN and become an ASTM member today.

ABOUT ASTM INTERNATIONAL

Established in 1898, ASTM International is a globally recognized leader in the development and delivery of international voluntary consensus standards and related products and services. Today, some 12,000 ASTM standards are used around the world to improve product quality, enhance safety, facilitate market access and trade, and build consumer confidence.

ASTM’s leadership in international standards development is driven by the contributions of its members: more than 30,000 of the world’s top technical experts and business professionals representing 150 countries. Working in an open and transparent process and using ASTM’s best-in-class standards development infrastructure, ASTM members deliver standard test methods, specifications, guides and practices that support industries and governments worldwide.

ASTM International meets the World Trade Organization (WTO) principles for the development of international standards: coherence, consensus, development dimension, effectiveness, impartiality, openness, relevance and transparency. ASTM standards are accepted and used in research and development, product testing, quality systems and commercial transactions around the globe.

NOVEMBER 2013
C27 STANDARDS

Precast concrete is an important material for building construction and materials as well as stormwater products, including the management of stormwater runoff and reduction of contamination to waterways, which in turn improves the quality of the finite fresh water supply.

The subcommittees of Committee C27 oversee 31 standards published in Volume 04.05 of the Annual Book of ASTM Standards. Some of the committee’s key standards are listed below.

- ASTM C858, Standard Specification for Underground Precast Concrete Utility Structures
- ASTM C1227, Standard Specification for Precast Concrete Septic Tanks
- ASTM C1613, Standard Specification for Precast Concrete Grease Interceptor Tanks

ASTM WATER PORTAL

C27 standards are included in the ASTM Water Portal, a site that provides a portfolio of ASTM standards related to water quality, focusing on the areas of environmental preservation, stewardship and sustainable use; testing and maintenance of water quality; extraction, transportation and infrastructure; water recapture, efficiency, reuse, recycling and sustainability; and consumer and industry water usage. Visit www.astm.org/waterportals.

For a complete guide to the work of the Committee C27, visit www.astm.org/COMMIT/C27

C27 SUBCOMMITTEES AND STANDARDS

SUBCOMMITTEES

Committee C27 makes significant contributions to the concrete pipe industry through the work of several technical standards development subcommittees:

- C27.10 Utility Structures
- C27.20 Architectural and Structural Products
- C27.30 Water and Wastewater Containers
- C27.40 Glass Fiber Reinforced Concrete
- C27.50 Terminology
- C27.60 Precast Autoclaved Aerated Concrete
- C27.70 Precast Concrete Products for Stormwater Management

Standards are available for purchase in hard copy, CD and virtual volume format online at www.astm.org or by contacting ASTM Customer Relations (phone: 877-909-ASTM; sales@astm.org).
