

ASTM International Technical Committee E50 on Environmental Assessment, Risk Management and Corrective Action

Scope

The promotion of knowledge, stimulation of research, and development of standard guides, specifications, practices, test methods, classifications, and definitions relating to environmental assessment, risk management and corrective action. The scope of the Committee includes, but is not limited to multi-media environmental assessment and risk management issues including environmental assessment, environmental management, corrective action due diligence, and sustainability.

These activities will be coordinated with and if available use the standards of other ASTM technical committees and organizations whose fields of endeavor are closely allied to or compliment environmental assessment and environmental management.

Technical Subcommittees

- E50.01 Storage Tanks
- E50.02 Real Estate Assessment and Management
- E50.02.02 Task Group for Phase II Environmental Assessments
