ASTM International Technical Committee E60 on Sustainability

Scope

The acquisition, promotion, and dissemination of knowledge, stimulation of research and the development of standards relating to sustainability and sustainable development. The committee shall include environmental, social, economic, and other issues relating to sustainability.

This committee shall support and serve as a resource for other ASTM committees in their activities that include sustainability issues. This support may include dissemination of specific requests for standards throughout ASTM's existing committee base, as well as the maintenance of appropriate liaison relationships (internal and external) related to this subject area.

The committee will not duplicate the efforts of existing ASTM technical committees. The work of this committee will be coordinated with other ASTM committees and other organizations having mutual interest.

Technical Subcommittees

- E60.01 Buildings and Construction
- E60.07 Water Use and Conservation
- E60.13 Sustainable Manufacturing
- E60.21 Terminology
- E60.80 General Sustainability Standards
- E60.90 Executive
- E60.91 Strategic Planning
- E60.95 Student Liaison and Affairs

Key Documents

- E2129 Standard Practice for Data Collection for Sustainability Assessment of Building Products
- E2432 Standard Guide for General Principles of Sustainability Relative to Buildings
- E2635 Standard Practice for Water Conservation in Buildings Through In-Situ Water Reclamation
- E2741 Standard Specification for Evaluation and Selection of Destinations for Environmentally Sustainable Meetings, Events, Trade Shows, and Conferences
- E2921 Standard Practice for Minimum Criteria for Comparing Whole Building Life Cycle Assessments for Use with Building Codes and Rating Systems
- E3012 Standard Guide for Characterizing Environmental Aspects of Manufacturing Processes
