ASTM International Technical Committee F27 on Snow and Water Sports

Scope

The scope of the committee shall be standardization of specifications, test methods, practices, and terminology for:

Personal equipment used in snow and water sports (including but not limited to snow skiing, snowboarding, water skiing, wakeboarding, and inflatables) to help reduce the potential risk of injury and the promotion of knowledge as it relates to standards for snow and water sports equipment.

Freestyle jumping features located in designated terrain parks at ski areas expressly constructed for recreational, non-competitive jumping to help reduce the potential risk of injury and the promotion of knowledge as it relates to standards for freestyle jumping features.

The work of this Committee will be coordinated with other ASTM committees and other organizations having mutual interest.
