ASTM Standards in Building Codes

Get the tools you need to design and construct buildings that satisfy the international code requirements established by the International Code Council (ICC®).

Over 2,000 ASTM construction standards compiled from the Annual Book of ASTM Standards, enable you to:

- Meet international code requirements
- Stay informed and remain competitive
- Specify the right material for the job
- Access the latest sustainability standards

Online Subscription  ■  Multi-User, Single-Site  ■  Price: $5,561

Provides easy access to the LATEST VERSIONS of the ASTM standards referenced by:

- The International Codes published by ICC®
- National Building Code of Canada – National Research Council Canada
- Uniform Plumbing Code and Uniform Mechanical Code – International Association of Plumbing and Mechanical Officials (IAPMO)
- MASTERSPEC®
- BSD SpecLink®
- NFPA5000™ — Building Construction and Safety Code™
- SPECTEXT® Master Guide Specifications
- UL Global Standards
- National Roofing Contractors Association (NRCA)

Online subscription via ASTM Compass® includes access to historical, withdrawn, and redline versions and workflow tools such as annotations and version comparisons. IP address access only; this is no longer a username/password product.

Stock# SUB-BLDGSVC-PLUS

Topics Cover:

- Adhesives
- Building Seals and Sealants
- Cement
- Composite Materials
- Concrete and Concrete Aggregates
- Concrete Pipe
- Consumer Products
- Copper and Copper Alloys
- Corrosion of Metals
- Dimension Stone
- Drain, Waste, and Vent Pipe
- Electrical Conductors
- Fasteners
- Fire Standards
- Geosynthetics
- Glass and Glass Products
- Iron Castings
- Light Metals and Alloys
- Masonry
- Nondestructive Testing
- Nonferrous Metals and Alloys
- Paint and Related Coatings
- Performance of Buildings
- Plastic Piping Systems
- Plastics
- Precast Concrete Products
- Protective Coating and Lining
- Road and Paving Materials
- Roofing and Waterproofing
- Rubber
- Security Systems
- Soil and Rock
- Solar Heating and Cooling Systems
- Steel, Stainless Steel and Related Alloys
- Sustainability
- Thermal Insulation
- Weathering and Durability
- Welding
