October 1975
Foreword

This book represents a part of a continuing effort by The Metal Properties Council on behalf of the engineering community. Individuals and organizations generating additional information concerning the materials evaluated in this report, or in others in this series, are urged to make these data available to the Council for incorporation in future revisions. Address the Council at: The United Engineering Center, 345 East 47th St., New York, N.Y. 10017.

A Note of Appreciation
to Reviewers

This publication is made possible by the authors and, also, the unheralded efforts of the reviewers. This body of technical experts whose dedication, sacrifice of time and effort, and collective wisdom in reviewing the papers must be acknowledged. The quality level of ASTM publications is a direct function of their respected opinions. On behalf of ASTM we acknowledge with appreciation their contribution.
