Cleanup Criteria for Contaminated Soil and Groundwater

Anthony J. Buonicore, Editor
Software Package in Support of ASTM Cleanup Criteria for Contaminated Soil and Groundwater (Data Series 64)

Software License Agreement

SYSTEM REQUIREMENTS
- IBM or IBM compatible PC (286 or above)
- A minimum of 640 kbytes RAM
- 530 kbytes available executable memory
- MS-DOS 3.0 or greater
- Monitor (VGA Color) or monochrome monitor
- Printer - any line printer

IMPORTANT! READ CAREFULLY BEFORE OPENING

THE ENCLOSED SOFTWARE PACKAGE IN SUPPORT OF ASTM CLEANUP CRITERIA FOR CONTAMINATED SOIL AND GROUNDWATER (DS 64) AND DOCUMENTATION IS LICENSED BY THE AMERICAN SOCIETY FOR TESTING AND MATERIALS (ASTM) TO YOU FOR YOUR USE ONLY ON THE TERMS SET FORTH BELOW.

OPENING THIS PACKAGE INDICATES YOUR ACCEPTANCE OF THE TERMS OF THIS AGREEMENT. IF THESE TERMS ARE UNACCEPTABLE, THE UNOPENED PACKAGE MAY BE RETURNED TO THE PLACE OF PURCHASE FOR A REFUND OF THE LICENSE FEE.

1. Definitions. Software means the SOFTWARE PACKAGE IN SUPPORT OF ASTM Cleanup Criteria for Contaminated Soil and Groundwater (DS 64) computer programs and files recorded on the disk enclosed in this package. Documentation means the User Manual and other materials packaged with the software.

2. License. You acknowledge that the American Society for Testing and Materials (ASTM) is the exclusive owners of the enclosed software and documentation. ASTM, in return for the payment of a one-time license fee, hereby grants you a nonexclusive and nontransferable license to use the enclosed software and documentation on a single computer.

3. Copyright: Restrictions On Use and Transfer. The software and the documentation are copyrighted. YOU MAY NOT USE, COPY, MODIFY, MERGE, OR TRANSFER THE SOFTWARE OR THE DOCUMENTATION, IN WHOLE OR IN PART, EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT. You may make no more than one copy of the software to serve as a back-up copy. The original and any back-up copy of the software may be used only in connection with a single computer. Simultaneous use of the software and any back-up copy is strictly prohibited. Without the prior written consent of ASTM, the software may not be distributed to others or transferred electronically from one computer to another over a network used on any multi-terminal computer system. IF YOU TRANSFER POSSESSION OF ANY COPY, MODIFICATION, OR MERGED PORTION OF THE SOFTWARE OR DOCUMENTATION TO ANOTHER PARTY, YOUR LICENSE IS AUTOMATICALLY TERMINATED.

4. Support. During the first year reasonable technical support will be provided by way of telephone or telex consultation at the numbers listed in the documentation, provided you return the enclosed Owner’s Registration Card. FAILURE TO RETURN THE OWNER’S REGISTRATION CARD WILL PRECLUDE YOU FROM RECEIVING ANY SUPPORT SERVICES. Technical support services will only be provided to the person or company listed on the Owner’s Registration Card.
5. **Term.** This license commences the day the package is opened and is effective until terminated. Upon termination, you are obligated to return the software and documentation to the place of purchase together with any and all copies, modifications, and merged portions. You may terminate the license by returning the software and documentation together with any and all copies, modifications, and merged portions to the place of purchase.

6. **Limited Warranty.** ASTM warrants to you that for a period of ninety (90) days ("Warranty Period") from the date this package is opened that the software, including the disk, is free from defects and will perform as described in the User Manual when operated in the manner set forth therein and that the User Manual contains all the information and instructions necessary to operate the software. In the event a defect is found to exist in the software during the Warranty Period, ASTM's sole obligation to you shall be to provide you with a replacement diskette.

7. **Other Warranties.** EXCEPT FOR THE LIMITED WARRANTY SPECIFICALLY DESCRIBED ABOVE, THERE ARE NO WARRANTIES, EITHER EXPRESS OR IMPLIED, FOR THE SOFTWARE OR DOCUMENTATION, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE.

8. **Disclaimer.** Extensive effort has been expended to make the computer program described in this software and documentation and distributed by ASTM accurate and reliable. However, neither the ASTM, its officers, directors, or employees, not the members and officers of Committee E-50, nor the employers of these persons, either singly or jointly, accept any responsibility for any errors which may exist in the program, nor for any mishaps that may result from use of the program, even if such use is in accordance with the instruction supplied with said program. Neither ASTM nor any other person who has been involved in the creation, production, or delivery of the software or documentation should be liable for any personal injury or property damage resulting from the use of the software or documentation. In the event that it shall be determined that the program furnished by ASTM contains one or more errors, the liability of ASTM shall be limited to the correction or errors and the replacement of any erroneous parts. THERE ARE NO WARRANTIES OF MERCHANTABILITY, OR OF FITNESS FOR ANY PARTICULAR PURPOSE, OR ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, ACCOMPANYING THIS PROGRAM.

9. **General.** This Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Pennsylvania and the United States of America. This Agreement is the complete and exclusive statement of the agreement between ASTM and you and supersedes any proposed or prior agreement, either oral or written, and any other communications between ASTM and you relating to the subject of this Agreement. This Agreement may be modified or supplemented only by a written document signed by ASTM and you. Questions concerning this Agreement may be directed to the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103. PHONE: (215) 299-5400, FAX: (215) 977-9679.

YOU ACKNOWLEDGE THAT YOU HAVE READ THIS SOFTWARE LICENSE AGREEMENT, UNDERSTAND IT, AND AGREE TO BE BOUND BY THE TERMS AND CONDITIONS HEREOF.
Foreword

ASTM Committee E-50 on Environmental Assessment is the sponsor of Data Series (DS) 64 on Cleanup Criteria for Contaminated Soil and Groundwater. Every attempt has been made to insure the accuracy and timeliness of the information included in this book. The general cut-off date for the information collected was 15 Aug., 1993.

Every effort has been made to ensure the data in the publication are accurate. However, in a book containing so many numbers, there is a possibility some errors may not have been caught and corrected in the quality control process. As such, if you find an error, please let ASTM know so that the errors may be corrected in the next update. Also, if you have any suggestions or comments, I would like to hear from you. If you have any complaints about the subject matter, I will share the blame with Bill Gulledge, Chairman of ASTM Subcommittee E50.04, who so freely volunteered me for this undertaking.

No book of this magnitude can be completed without assistance from many capable individuals. In particular, I would like to acknowledge Connie Marini of Environmental Data Resources, Inc. who was responsible for collecting state cleanup criteria, Tom Scelfo of Wehran who assisted me in collection of the cleanup criteria data, Kathy Dernoga and Sue Gebremedhin of ASTM who were responsible for coordinating my efforts, Kathleen A. Peters of ASTM who was responsible for the editing of text and inputting numerical cleanup values into the software, and AGC Sedgwick of Princeton, New Jersey who was responsible for developing the search software.

Anthony J. Buonicore, Editor
About the Editor

Anthony J. Buonicore, P.E., is Chief Executive Officer of Environmental Data Resources, Inc., a national environmental information services company headquartered in Southport, Connecticut. Mr. Buonicore received both his Bachelors and Masters Degrees in Chemical Engineering from Manhattan College in New York and is a nationally recognized expert on environmental risk management. He is a licensed professional engineer and a Diplomate in the American Academy of Environmental Engineers. He has more than 20 years experience dealing with environmental issues from both a technical and business viewpoint and is currently a Fellow Member and President of the Air & Waste Management Association. He is also Chairman of ASTM's Phase I Standard sub-committee in E50.02. Mr. Buonicore's other affiliations include membership in the American Institute of Chemical Engineers, the National Ground Water Association, Tau Beta Pi and Sigma Xi.
