Peer Review Policy

Each paper published in this volume was evaluated by three peer reviewers. The authors addressed all of the reviewers' comments to the satisfaction of both the technical editor(s) and the ASTM Committee on Publications.

The quality of the papers in this publication reflects not only the obvious efforts of the authors and the technical editor(s), but also the work of these peer reviewers. The ASTM Committee on Publications acknowledges with appreciation their dedication and contribution of time and effort on behalf of ASTM.

Foreword

The symposium on Development of Fatigue Loading Spectra was held in Cincinnati, Ohio, 29 April 1987. ASTM Committee E-9 on Fatigue and SAE Committee on Fatigue Design and Evaluation sponsored the symposium. John M. Potter, Wright Patterson Air Force Base, and Roy T. Watanabe, Boeing Commercial Airplane Company, served as symposium cochairman and coeditors of this publication.
