THE MEASUREMENT AND CORRECTION OF ELECTROLYTE RESISTANCE IN ELECTROCHEMICAL TESTS

Scribner/Taylor, editors

ASTM STP 1056
The Measurement and Correction of Electrolyte Resistance in Electrochemical Tests

L. L. Scribner and S. R. Taylor, editors
Foreword

The Symposium on Ohmic Electrolyte Resistance Measurement and Compensation was held at Baltimore, MD on 17 May 1988. ASTM Committees G-1 on Corrosion of Metals and G1.11 on Electrochemical Measurements in Testing sponsored the symposium. L. L. Scribner and S. R. Taylor, University of Virginia, served as chairmen of the symposium and are editors of the resulting publication.
Contents

Overview

Theory

Influence of Electrolyte Resistance on Electrochemical Measurements and Procedures to Minimize or Compensate for Resistance Errors—
HARVEY P. HACK, PATRICK J. MORAN, AND JOHN R. SCULLY

IR Drop in Electrochemical Corrosion Studies—Part I: Basic Concepts and Estimates of Possible Measurement Errors—WILLIAM C. EHRHARDT

Critical Comparisons of Methods

Theoretical Problems Related to Ohmic Resistance Compensation—
KEMAL NISANCI OGLU

IR Drop in Electrochemical Corrosion Studies—Part 2: A Multiple Method IR Compensation System—WILLIAM C. EHRHARDT

Determination and Elimination of the Uncompensated Resistance in Low Conductivity Media—FLORI AK N MANSFELD, Y. C. CHEN, AND H. SHIH

Mathematical Approaches

Correction of Experimental Data for the Ohmic Potential Drop Corresponding to a Secondary Current Distribution on a Disk Electrode—J. MATTHEW ESTEBAN, MARK LOWRY, AND MARK E. ORAZEM

Application of Numerical Simulations to Evaluate Components of Potential Difference in Solution—VINCENT FAROZIC AND GEOFFREY PRENTICE

Applications

Ohmic Compensation in Desert Soil Using a Galvanostatic DC Bridge—
DANIEL ABRAHAM, DENNY A. JONES, MICHAEL R. WHITBECK, AND CLINTON M. CASE
Measurements of IR-Drop Free Pipe-to-Soil Potentials on Buried Pipelines—
NEIL G. THOMPSON AND JOHN A. BEAVERS 168

Elimination of IR Error in Measurements of Corrosion in Concrete—
E. ESCALANTE 180

Comparison of Current Interruption and Electrochemical Impedance Techniques in the Determination of Corrosion Rates of Steel in Concrete—NEAL S. BERKE, DING FENG SHEN, AND KATHLEEN M. SUNDBERG 191

The Importance of Ohmic Potential Drop in Crevice Corrosion—
BARBARA A. SHAW 211
