Buildings Sealants: Materials, Properties, and Performance

Thomas F. O'Connor, editor
Foreword

The symposium on Building Sealants: Materials, Properties, and Performance was held in Fort Lauderdale, Florida, on 31 Jan.–1 Feb. 1990. ASTM Committee C-24 on Building Seals and Sealants sponsored the symposium. Thomas F. O’Connor, Smith, Hinchman & Grylls Associates, Inc., served as chairman of the symposium and editor of the resulting publication.
# Contents

Overview

**Structural Sealant Glazing**

Resistance of Structural Silicones to Creep Rupture and Fatigue—
L. Bogue Sandberg and Amy E. Rintala

Sealant Stresses in Structural Glazing: A Mathematical Model—
C. V. Girija Vallabhan and Gee David Chou

Changes in Seal Shapes of Structurally Glazed Insulating Glass Units—
James R. Bailey, Joseph E. Minor, and Richard W. Tock

Structural Silicone Sealant Requirements for Attaching Stone Panels for Exterior Applications—Lawrence D. Carbery

Comparison of European and U.S. Testing/Qualification Procedures for Structural Glazing Silicone Sealants—Jean Iker and Andreas T. Wolf

Structural Glazing from a Curtain Wall Designer’s Perspective—Leon S. Jacob and Brad Johanson

**Movement Capacity of Sealants**

Sealant Stresses in Tension and Shear—Franklin W. Shisler III and Jerome M. Klosowski

Behavior of Fillet Sealant Joints—James C. Myers

Design of Sealant Joints—Thomas F. O’Connor

**Laboratory Investigation**

Temperature and Moisture Effects on the Engineering Properties of Silicone Sealants—Richard W. Tock

Adhesive Properties of Silicone Sealants—W. S. Gutowski
The Influence of Heat Ageing on One-Part Construction Silicone Sealants—HERBERT STOEGBAUER AND ANDREAS T. WOLF 193

The Water Resistance of Sealants for Construction—JOHN BEECH AND CHRISTOPHER MANSFIELD 209

Use of Q-U-V to Predict the Edge Compatibility of Commercial Sealants with Laminated Glass—I. LUIS GOMEZ AND M. R. COLELLA 221

Polyurethane—A Simple Method of Selecting Polyurethane Sealants for Your Particular Application—LEON J. JACOB AND KEVIN J. PAYNE 261

Silicon Modified Polyethers for Moisture Cured Sealants—JOHN F. TIMBERLAKE 271

Sealant Back-Up Material and New Developments—MICHAEL J. SCHROEDER AND EDWARD E. HOVIS 282

Sealant Joint Performance

European Experiences of Sealants in Service, Correlation to Results from Laboratory Tests—PER G. BURSTRÖM 295

Sealant Usage for Exterior Insulation and Finish Systems—MARK F. WILLIAMS AND BARBARA LAMP WILLIAMS 303

Why Construction Sealants Fail—An Overview—KAREN L. WARSECK 315

Present and Future Trends

Status of High-Rise Building Sealants in the U.S.—JULIAN R. PANEK 329

Architectural Design Challenges for Sealant Technology and Design Standards—ANDREW CHARLES YANOVIAK 334

Index 347
