NOTE

The Society is not responsible, as a body,
for the statements and opinions
advanced in this publication.

Peer Review Policy

Each paper published in this volume was evaluated by three peer reviewers. The authors addressed all of the reviewers' comments to the satisfaction of both the technical editor(s) and the ASTM Committee on Publications.

The quality of the papers in this publication reflects not only the obvious efforts of the authors and the technical editor(s), but also the work of these peer reviewers. The ASTM Committee on Publications acknowledges with appreciation their dedication and contribution of time and effort on behalf of ASTM.

Foreword

This publication, *Acoustic Emission: Current Practice and Future Directions*, contains papers presented at the symposium on World Meeting on Acoustic Emission held in Charlotte, NC on 20–23 March 1989. The symposium was sponsored by AEWG. Co-sponsoring groups were ASTM Committee E-7 on Nondestructive Testing, ASNT, IEEE, and SEM. Professor Wolfgang Sachse of Cornell University, Dr. James Roget of Nordon and CIE, and Professor Kusuo Yamaguchi of the University of Tokyo, presided as symposium chairman. They are also editors of this publication.

Contents

Overview —W. SACHSE, K. YAMAGUCHI, AND J. ROGET	1
AE SENSORS AND SYSTEMS	
The General Problems of AE Sensors —Y. HIGO AND H. INABA	7
Stress Wave Sensing—Affordable AE for Industry —T. J. HOLROYD, T. E. TRACEY, N. RANDALL, AND S. D. KING	25
Monitoring Electron Beam Welding Process Using Electro-Magnetic Acoustic Transducers (EMAT's) —H. A. CROSTACK, H. J. STORP, AND P. BOHM	35
AE SOURCES AND WAVE PROPAGATION	
Development and Future Aspects in AE Source Characterization —M. ENOKI AND T. KISHI	47
Joule Heating Line and Point AE Sources and the Adhesion of Thin Metal Films — K. Y. KIM AND W. SACHSE	67
A Calibration Source for Acoustic Emission Analysis —C. R. HEIPLE, S. H. CARPENTER, AND S. S. CHRISTIANSEN	77
Simultaneous Velocity Tomography and Source Location of Synthetic Acoustic Emission Data —S. C. MAXWELL, R. P. YOUNG, AND D. A. HUTCHINS	86
Acousto-Ultrasonics: An Update —A. VARY	95
Theoretical Basis of the Acousto-Ultrasonic Method —M. T. KIERNAN AND J. C. DUKE, JR.	105
SIGNAL PROCESSING APPROACHES	
Acoustic Emission Technology Using Multi-Parameter Analysis of Waveform and Application to GFRP Tensile Tests —K. YAMAGUCHI, H. OYAIZU, J. JOHKAJI, AND Y. KOBAYASHI	123
Acoustic Emission Detection of Crack Presence and Crack Advance During Flight — S. L. MCBRIDE, M. D. POLLARD, J. D. MACPHAIL, P. S. BOWMAN, AND D. T. PETERS	146
Structural Integrity Evaluation Using AE Techniques —B. R. A. WOOD AND R. W. HARRIS	156
Solving AE Problems by a Neural Network —I. GRABEC, W. SACHSE, AND E. GOVEKAR	165
STRUCTURAL MONITORING APPLICATIONS	
Periodic Inspection of Compressed Gas Cylinders and Transport Vessels by Using Acoustic Emission Testing —H. M. BARTHÉLÉMY	185

Detectability of Defects in Reactor Pressure Components by Location and Interpretation of AE-Sources—C. SKLARCYK AND E. WASCHKIES	199
------------------------------------------------------------------------------------------------------------------------------------------	-----

DEFORMATION STUDIES

Effect of Pre-Exposure to Water on the Acoustic Emission Behavior of 2091-T3 Al-Li Alloy—F. ZEIDES AND I. ROMAN	213
Acoustic Emission During Tensile Deformation and Fracture in Austenitic Alloys—B. RAJ AND T. JAYAKUMAR	218
Relationship Between Acoustic Emission and Flaw Size in Si₃N₄ Ceramics—Y. MORI AND T. KISHI	242
A Comparison of the Acoustic Emission Generated from the Fracture and Decohesion of Graphite Nodules with Theoretical Predictions—S. H. CARPENTER AND Z. ZHU	252
Evaluation of Fatigue Crack Growth Rate of Carburized Gear by Acoustic Emission Technique—Y. OBATA, H. KOBAYASHI, K. AOKI, T. YAMAGUCHI, AND K. SHIBATA	261

NOVEL APPLICATIONS

Characterisation of Dust Impact at Low Velocity by Acoustic Emission—D. J. BUTTLE AND C. B. SCRUBY	273
Applications of Acoustic Emission Techniques for Diagnosis of Large Rotating Machinery and Mass Production Products—I. SATO, T. YONEYAMA, K. SATO, T. TANAKA, M. YANAGIBASHI, AND K. TAKIKAWA	287
Cavitation Monitoring of Hydroturbines with RMS Acoustic Emission Measurement—O. DERAKHSHAN, J. R. HOUGHTON, R. K. JONES, AND P. A. MARCH	305
Tool Monitoring by Acoustic Emission—J. ROGET, P. SOUQUET, M. DESCHAMPS, AND N. GSIB	316
Monitoring of the Machining Process by Means of Acoustic Emission Sensors—D. A. DORNFFELD	328

GEOTECHNICAL APPLICATIONS

Microseismics and Geotechnical Applications—M. OHTSU	347
Acoustic Emission/Microseismic Activity at Very Low Strain Levels—B. H. ARMSTRONG AND C. M. VALDES	358
Acoustic Emission Monitoring and Analysis Procedures Utilized During Deformation Studies on Geologic Materials—X. SUN, H. R. HARDY, JR., AND M. V. M. S. RAO	365

Acoustic Emission Analysis and Ultrasonic Velocity Imaging in the Study of Rock Failure —S. D. FALLS, T. CHOW, R. P. YOUNG, AND D. A. HUTCHINS	381
APPLICATIONS TO COMPOSITE MATERIALS	
Fracture Mechanism Studies of a Carbon Fiber-Peek Composite by Acoustic Emission —K. ONO, J. S. JENG, AND J. M. YANG	395
On the Correlation Between Acoustic Emission and Progression of Matrix Splitting in a Unidirectional Graphite/Epoxy Composite —S. GHAFFARI AND J. AWERBUCH	404
Identification of Fatigue Failure Modes in Carbon Fibre Reinforced Composites with the Energy Discriminating Acoustic Emission Method —M. WEVERS, I. VERPOEST, P. DE MEESTER, AND E. AERNOUDT	416
Detection of Impact Damage in Composite Bi-Axial Test Specimens by Use of Thermally-Activated Acoustic Emission —J. W. WHITTAKER AND W. D. BROSEY	424
Acoustic Emission Monitoring of Contact Drying of Southern Pine Veneer —F. C. BEALL	435
Author Index	445
Subject Index	447
