Peer Review Policy

Each paper published in this volume was evaluated by two peer reviewers and at least one editor. The authors addressed all of the reviewers' comments to the satisfaction of both the technical editor(s) and the ASTM International Committee on Publications.

The quality of the papers in this publication reflects not only the obvious efforts of the authors and the technical editor(s), but also the work of the peer reviewers. In keeping with long-standing publication practices, ASTM International maintains the anonymity of the peer reviewers. The ASTM International Committee on Publications acknowledges with appreciation their dedication and contribution of time and effort on behalf of ASTM International.

Foreword

The Eleventh Symposium on Masonry was held in Toronto, Ontario, Canada on June 13, 2006. This symposium was sponsored by ASTM Committee C12 Mortars and Grouts for Unit Masonry, Committee C15 Manufactured Masonry Units, C1 Cement, and C7 Lime. The symposium co-chairmen of this publication were Brian E. Trimble and Joseph H. Brisch.

Contents

Overview	vii
Investigation and Repair of Glazed Brick Cladding: A Case Study —TODD A. GORRELL AND IAN R. CHIN	1
A Discussion of the Benefits and Problems of ASTM C 1324 for Analyzing Hardened Masonry Mortars —LAURA POWERS, ANN COLEMAN AND SUSANNE PAPAS	11
Laboratory Study of Time-of-Tooling Effects on Mortar Joint Color —BERNARD ERLIN AND TIM CONWAY	20
The Selection and Use of Natural and Manufactured Stone Adhered Veneer — RICHARD J. GODBEY AND MARGARET L. THOMSON	32
Deflection Criteria for Masonry Beams —RICHARD M. BENNETT, WILLIAM M. MCGINLEY, AND JIM BRYJA	39
Variations in the Activity of Dry-Powder Water-Repellent Mortar Admixtures with Different Mortar Formulae —HERB NORDMEYER AND PAM HALL	49
Evaluation of ASTM Methods to Determine Splitting Tensile Strength in Concrete, Masonry, and Autoclaved Aerated Concrete —CODY K. PARKER, JENNIFER E. TANNER, AND JORGE L. VARELA	62
Type S Portland Cement-Lime Mortar as a Low-Lift Grout —DAVID T. BIGGS, AND MARGARET L. THOMSON	74
The Effect of Void Area on Brick Masonry Performance —JOHN P. SANDERS AND DENIS A. BROSNAN	84
Evaluation of the Effectiveness of Clear Water Repellent Coatings on Partially Grouted Single-Wythe Concrete Masonry Walls —JEFFREY H. GREENWALD AND THOMAS C. YOUNG	98
Seismic Evaluation of Low-Rise Reinforced Masonry Buildings with Flexible Diaphragms —GREGORY L. COHEN, RICHARD E. KLINGNER, JOHN R. HAYES, JR., AND STEVEN C. SWEENEY	109
Greening of Mortars with Pozzolans —KEITH BARGAHEISER AND D. HERBERT NORDMEYER	147
Replacement of the Final Time of Setting Maximum with an Initial Time of Setting Maximum as Measured with the Gillmore Needles in ASTM C 91, C 1328, and C 1329 —JOHN T. CONWAY	156

Overview

These Proceedings are the eleventh in a series of ASTM symposia on masonry that began in 1974. Sponsored jointly by ASTM Committee C1 on Cement, C7 on Lime, C12 on Mortars for Unit Masonry, and C15 on Manufactured Masonry Units, the symposia provide a forum for the exchange of ideas, information, and practical experience in multiple areas related to masonry. This resulting STP includes papers presented orally at the June 13, 2006 symposium held in Toronto, Ontario, Canada.

This “2006 ASTM Masonry Symposium” was dedicated to Committee C12 on Mortars and Grouts for Unit Masonry on its 75th Anniversary of developing ASTM standards. It was the committee’s desire to elicit papers on the importance of standards that were developed through the ASTM consensus process. Current research, new ideas, and new products all assist with the development of good ASTM standards.

The papers contained in this symposium volume represent the work of 33 authors and co-authors; they were peer reviewed by approximately 70 members of ASTM Committees C1, C7, C12, and C15. The Joint Symposium Committee was made up of members of the four sponsoring committees, with C12 acting as the lead committee for the 2006 Symposium and STP.

Committee members were Brian Trimble and Joseph Brisch co-chairs and representatives of Committee C12; Denis Brosnan and Richard Klingner representing C15; Mike Tate and Margaret Thomson representing C7; and Bill Behie representing C1.

Finally, many ASTM staff members aided the Joint Committee in conducting the Symposium and preparing this STP. We thank the authors, reviewers, symposium attendees, sponsoring committee members, and ASTM staff for their work to enhance the success of this symposium and corresponding STP.
