Pesticide Formulations and Delivery Systems
28th Volume:
Global Trends and Regulatory Drivers in the Crop Protection Industry

Arlean Rohde
Craig Martin
Gerald Otis
Guest Editors
THIS SPECIAL ISSUE OF JAI, Special Technical Publication STP 1507, Pesticide Formulations and Delivery Systems, 28th Volume: Global Trends and Regulatory Drivers in the Crop Protection Industry, contains papers presented at the symposium with the same name held in Tampa, FL, October 30-November 1, 2007. The symposium was sponsored by ASTM International Committee E35 on Pesticides and Alternative Control Agents and Committee E35.22 on Pesticide Formulations and Delivery Systems.

The symposium chair was Arlean M. Rohde, ExxonMobil Chemical Co., Houston, TX. The symposium co-chairs were Craig Martin, FMC Corp., Princeton, NJ and Gerald Otis, Bayer CropScience, Kansas City, MO.
Contents

Formulations I

Novel Delivery Systems for Integrated Pest Management
S. H. Hutchins and K. M. Swayze ................................................................. 3

Fungicides Associated with Two Adjuvant Formulations for Preventive and Curative Soybean Rust Control
D. C. Ferguson, J. R. Yowell, L. L. May-De Mio, C. V. Godoy, F. da Cunha,
G. Machado Rosa, and V. da C. Lima Neto ............................................. 10

A Unique Formulation of Glyphosate in the Acid Form
G. Volgas, R. E. Mack, J. Roberts, M. Wayland, and B. Alford ................. 31

Development of a Multimedia Model for the Fate Prediction of Hydrocarbon Fluids in Agrochemical Formulations
C. S. Warren, T. F. Parkerton, A. M. Rohde, R. C. Prince, R. Manning,
and D. J. Letinski .................................................................................. 39

Regulatory Initiatives

Assessment of the Ozone Formation Potential from Pesticide Solvents Using a Mobile Ozone Chamber Assay Approach
A. Kumar, W. Yang, C. J. Howard, M. J. Kleeman, D. Derrick, and P. G. Green ..... 57

Delivery Applications

Collection Efficiencies of Various Airborne Spray Flux Samplers Used in Aerial Application Research
B. K. Fritz and W. C. Hoffmann ............................................................... 75

Evaporation of Pesticide Droplets on Surfaces Under Various Relative Humidity Conditions
Y. Yu, H. Zhu, and H. E. Ozkan ................................................................. 89

Formulations II

Comparison of ASTM and CIPAC Suspension Methods
L. Costello and G. Lindner ................................................................. 103

Research: Soil, Seed, Test Methods

Soil Water Measurements Relevant to Agronomic and Environmental Functions of Chemically Treated Soil

Investigating the Use of Hydrocarbon Fluids in Seed Treatment Formulations
M. A. Krevais and G. B. Beestman .......................................................... 145

Morpholine Amide Solvent: A New Inert
A. J. Stern and D. C. Ferguson ............................................................. 164
