FOREWORD

The papers in this Symposium on Fluorescent X-ray Spectrographic Analysis were presented at the Fourth Session of the Fifty-sixth Annual Meeting of the American Society for Testing Materials, held in Atlantic City, N. J., June 29, 1953.

This symposium was under the sponsorship of Committee E-2 on Emission Spectroscopy. Mr. E. B. Ashcraft, Westinghouse Electric Corp., Pittsburgh, Pa., acted as chairman for the session.
CONTENTS

Introduction—E. B. Ashcraft ...................................................... 1
Basic Theory and Fundamentals of Fluorescent X-ray Spectrographic Analysis—
  H. Friedman, L. S. Birks, and E. J. Brooks ................................. 3
The Correlation Between Fluorescent X-ray Intensity and Chemical Composition—
  J. Sherman ................................................................. 27
Use of Multichannel Recording in X-ray Fluorescent Analysis—M. F. Hasler and
  J. W. Kemp .................................................................. 34
Examination of Metallic Materials by X-ray Emission Spectrography—R. M. Brissey,
  H. A. Liebhafsky, and H. G. Pfeiffer ........................................ 43
An Absolute Method of X-ray Fluorescence Analysis Applied to Stainless Steels—
  Gordon E. Noakes ................................................................ 57
The Fluorescent X-ray Spectrographic Analysis of Minerals—Howard F. Carl and
  William J. Campbell ......................................................... 63
THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations cooperating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
