FOREWORD

The papers in this Symposium on Diesel Fuels were presented at a meeting of Committee D-2 on Petroleum Products and Lubricants, held in Philadelphia, Pa., February 17, 1954. The Symposium was sponsored by Technical Committee F, on Diesel Fuels, of Committee D-2.

Mr. W. K. Simpson, Fuel and Lubricant Engineer, Electro-Motive Division, General Motors Corp., Chairman of Technical Committee F, acted as Chairman for the Session. Mr. R. M. Landon, Gulf Oil Corp., Pittsburgh, Pa., assisted in organizing the Symposium and acted as Secretary for the Session.
Note.—The Society is not responsible, as a body, for the statements and opinions advanced in this publication.
CONTENTS

Introduction—W. K. Simpson ................................................................. 1
The Availability and Demand Outlook, Distribution and Principal Properties of Domestic Diesel Fuels—C. M. Larson ........................................... 3
Diesel Fuel Specifications Requirements—C. C. Ward .......................... 15
The Increasing Use of Furnace Oils for Diesel Fuel—Harold V. Messick .... 22
Distribution and Storage Problems with Diesel Fuels—C. C. Moore and W. P. Lakin ................................................................. 24
Survey of Diesel Fuel Oils Available at Roadside Filling Stations—W. A. Howe ... 28
Technical Problems Associated with Diesel Fuels in Contractors’ Equipment—J. W. Vollentine ................................................................. 30
Technical Problems Associated with Diesel Fuels Interstate Coach Operation—W. A. Duvall ................................................................. 33
Technical Problems Associated with Diesel Fuels in Railroad Operations—R. W. Seniff ................................................................. 36
Diesel Fuels in Marine Operations—C. E. Habermann .......................... 40

Tentative Classification of Diesel Fuel Oils (D 975 – 53 T) ...................... 45
THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations cooperating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
